6 Common metals and their alloys; ores of metal; materials of metal for building and construction; buildings, transportable, of metal; non-electric cables and wires of common metal; metal hardware; storage containers of metal; containers of metal for transport; safes; cast iron, in particular ferritic cast iron, in particular ductile iron, in particular with a high nickel content; cast iron containing

spheroidal graphite, in particular with graphite spheres embedded in a ferritic structure; cast iron, in particular austenitic cast iron, in particular ductile iron, in particular with a high nickel content; cast iron containing spheroidal graphite, in particular with graphite spheres embedded in an austenitic structure; cast iron with a single-phase or multiple-phase matrix structure, in particular with a single-phase matrix structure formed from austenitic cast iron; ductile cast iron; solid cast iron materials; unbreakable cast materials; cast iron for heat applications; cast iron manufactured in an electric induction furnace; cast iron, unwrought or semi-wrought; engine casings of metal, in particular cast iron; machine foundations, namely press machine foundations of metal, in particular cast iron; materials of metal for building and construction; buildings, transportable, of metal; materials of metal for building, in particular cast iron for building; structural parts, such as bridges and parts of bridges; building materials of metal, in particular cast iron material for railway tracks, cast iron material for bridges; cast iron pipes; swage blocks; common metals, unwrought or semi-wrought; metal hardware; containers of metal, in particular cast iron, for storage, in particular for long-term storage; containers of metal, in particular cast iron, for transport; vaults and safes of metal, in particular cast iron; strongrooms; railway sleepers of metal, in particular cast iron; bridges [constructions] and their structural parts, such as bridge railings, bridge posts, bridge bearings, in particular railway bridges and their structural parts of metal, in particular of cast iron; temporary bridges of metal, in particular cast iron; building and construction materials and elements of metal; structures and transportable buildings of metal; containers of metal for storage, transport and packaging; branching pipes of metal; gutter pipes of metal; jets of metal; acoustic panels of metal; reinforcing materials of metal for building; anchors; mooring buoys of metal; anchor plates; mooring bollards of metal; cladding of metal for building; ingots of common metal; building materials of metal; buildings of metal; tanks of metal; containers of metal for compressed gas or liquid air; containers of metal for the interim and final storage of radioactive materials; closures of metal for containers; shuttering of metal for concrete; metals in foil or powder form for 3d printers; cermets; containers of metal [storage, transport]; turnstiles of metal; turntables [railways]; penstock pipes of metal; nozzles of metal; railway sleepers of metal; railway points; check rails of metal for railways; casks of metal; refractory construction materials of metal; flanges of metal [collars]; handling pallets of metal; hoppers of metal, non-mechanical; armoured doors of metal; scaffolding of metal; framework of metal for building; foundry moulds of metal; latticework of metal; chimney pots of metal; chimney cowls of metal; fireplace grates of metal; fireplace mantles of metal; boxes of common metal; chests of metal; metal hardware; chill-moulds [foundry]; duckboards of metal; alloys of common metal; crash barriers of metal for roads; ducts of metal for ventilating and air-conditioning installations; reinforcing materials of metal for pipes; masts of metal; wall claddings of metal for building; reinforcing materials, of metal, for concrete; frames of metal for building; fittings of metal for furniture; collecting trays of metal; materials of metal for funicular railway permanent ways; armour-plating of metal; pyrophoric metals; common metals, unwrought or semi-wrought; cast iron, unwrought or semi-wrought; steel, unwrought or semi-wrought; lead, unwrought or semi-wrought; iron, unwrought or semi-wrought; copper, unwrought or semi-wrought; brass, unwrought or semi-wrought; tubes of metal; elbows of metal for pipes; pipework of metal; pipe muffs of metal; clips of metal for pipes; junctions of metal for pipes; safes [metal or non-metal]; pillars of metal for building; containers of metal for storing acids; tubbing of metal; manhole covers of metal; rails of metal; railway material of metal; fish plates [rails]; chimney cowls of metal; chimney pots of metal; chimney shafts of metal; screws of metal; nuts of metal; sills of metal; steel sheets; cast steel; steel buildings; steel alloys; steel masts; steel tubes; steel tubes; props of metal; beams of metal; buildings, transportable, of metal; partitions of metal; doors of metal; staircases of metal; valves of metal, other than parts of machines; manifolds of metal for pipelines; chimneys of metal; platforms, prefabricated, of metal; angle irons of metal; brackets of metal for building; brackets of metal for furniture; pot hooks of metal; ducts of metal, for central heating installations; building materials of metal; common metals and their alloys; metal building structures and parts thereof; shuttering and moulds of metal; shutters, shuttering and mouldings of metal for concrete; shutters, shuttering and mouldings of metal for precast and cast-in-situ concrete; structural parts and structures of common metals and their alloys; metal structures for use in the building industry; metal structures for use in architecture; support structures of metal; structural parts, of metal, for boats, ships, maritime, aviation and local transport structures; metal structures for use in wind- and sea turbines; common metals, unwrought or semi-wrought; rails of metal; railway material of metal; building and construction materials and elements of metal; buildings being fixed structures of metal; guide rails of metal; boxes of common metal; flap valves of metal, namely for drainage pipes; flap valves of metal, namely for water pipes; flap valves of metal, namely for gas pipes, namely for air pipes; small parts of metal; reinforcing materials of metal for pipes; ducts of metal for ventilating and air-conditioning installations; chimneys of metal for energy and drying technology, for the power plant industry; pipes of metal, large pipelines, exhaust

steam pipes; compensator pipes, flue gas ducts in the form of gas pipes, superheated steam, water, condensate and thermal oil pipes; steel buildings; non-electric building materials of metal; metallic composite structures, namely composite structures containing metal; parts and fittings for all the aforesaid goods, included in this class.

7 Machines, machine installations and parts thereof for mechanical and chemical process engineering and for the production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; partly automated, fully automated or artificial intelligence-aided [smart] industrial robots for the material processing and production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of castings from alloyed and unalloyed ferrous and non-ferrous metals, alloyed and unalloyed steels, preferably of castings in a large mould; cast troughs and cast platens [parts of machines]; cast filters [parts of machines]; cast hoppers [parts of machines]; moulds [parts of machines]; moulds that can be used multiple times, preferably chill-moulds, namely single chill-moulds and multiple child-moulds [parts of machines]; crushing machines; mills [machines], mills for cryogenic grinding, impact grinding crushers, hammer mills, cross beater mills, precision surface-layer mills, whirlwind mills, toothed-disc mills, bark mills, delamination mills, secondary crushers, classifier mills, milling layer installations, fine mills, precision mills, mills for producing mineral and metallic powder, granulators, wet granulators, pipe granulators, precision granulators, profile granulators, lead-frame granulators, hard foam granulators, film granulators, small granulators, pelletisers, strand granulators, band granulators, chippers, drum chippers, hammer mills, impact hammer mills, pulp separators, impact crushing machines, turbo mills, blow nose mills, pin mills, universal mills, ball mills, jet mills, counter-jet mills, colloidal mills, counter-flow mills, double-flow mills, rolling mills; pulping machines [refiners]; cutting, shearing, mixing, grinding, impact and striking tools, all being parts of machines, knives [parts of machines], cutter blocks, cutting discs, cutting tips, shearing strips, grinding tracks, grinding discs, milling pins, grinding segments, grinding grids, grinding sets, pan grinder rollers, sieves [parts of machines], sifting tracks, disc screens, drum screens, perforated sheets [parts of machines], beater plates, impact strips, hammers [parts of machines], cylinders, pinion rollers, cylindrical milling cutters, grates [parts of machines], strainer bars, rod plates and gratings, mixing blades, pressure fittings, matrices [parts of machines], doctor blades, break cams, linings [parts of machines], wear plates [parts of machines], wear discs, wear rings, wear strips, wear shoes; machines and mechanical appliances for the shredding, granulation, disintegration, de-agglomeration, defibration and fine and ultra-fine grinding of materials, and parts thereof; machines for shredding soft to medium-hard materials such as minerals, plastics, wood, foodstuffs and animal feed, leather, cellulose, rubber, elastomers and soft sheet metal; machines for the shredding of temperature-sensitive materials such as plastics, thermoplastics, thermosetting plastics, elastomers, food and luxury foods, aromatic materials, pharmaceutical and cosmetic materials, chemical materials, materials containing oil and grease, highly viscous and adhesive materials, and parts thereof; rolling mills; machines and mechanical apparatus for the separation, classification, removal, degassing and filling of materials; machines and mechanical apparatus for separating bulk materials of differing densities and/or sizes; dynamic and static air separators, cross-flow separators, centrifugal separators, basket separators, reverse separators, cascade separators, gravity separators, zig-zag separators, sifting machines, vacuum sifting machines, vibration sifting machines, drum screening machines, vibrating screening machines, flat sifting machines, eddy current sifting machines, tumbler sifting machines, roller separators, filtering machines, hose filters (parts of machines), cartridge filters (parts of machines), pocket filters (parts of machines), cyclones, separators, centrifuges, disintegrators, blowing machines, extracting machines, magnetic drums (parts of machines), magnetic rollers (parts of machines), magnetic grates (parts of machines), mechanical separators, gravity separators, overbelt magnetic separators, induction separators, metal detection coils (parts of machines); machines and

mechanical apparatus for the recycling and separation of materials, in particular for separating the components of composite materials; separating machines; plant shredding machines; wood-crushing machines; machinery and installations for the production of wood chips; long log flakers; beating flakers; breakers, jaw crushers, primary crushers; machines and installations for the mechanical processing of materials and bulk materials into powders and granulates; machines and installations for the crushing and processing of thermoplastics, plastic waste and rubber; pulverizing mills; disc mills; filtering machines, separators and centrifuges; drum shredders, bale shredders, guillotines, guillotine shears, scrap shears, scrap presses, chippers, drum chippers, disc chippers, plastic chippers, vertical crushers, shredders, single-shaft shredders, multi-shaft shredders, horizontal shredders, vertical shredders; flakers, knife ring flakers, disc flakers, universal flakers, mills [machines], mills for cryogenic grinding, impact grinding crushers, hammer mills, cross beater mills, precision service-layer mills, whirlwind mills, toothed-disc mills, bark mills, delamination mills, impact crushing machines; sifters; sorting machines for industry; machines and machine tools for treatment of materials and for manufacturing; industrial robots; material production and processing machines; single- and multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from raw materials, namely plant-based raw materials, namely raw materials obtained from annual or perennial plants, into single- or multi-layer panel-shaped materials such as fibreboard, chipboard, oriented strand board [osb] or into mixed forms thereof [hybrid boards]; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from a mixture of raw materials, namely a mixture of two or more single-origin raw materials [basis], of which at least one forms a continuous phase [composite material], namely a composite material that features a matrix and a mesh arranged therein, namely a composite material with a matrix formed from resin and a fibre or grid structure formed from carbon; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from plastics, namely thermoplastics, thermosetting plastics or elastomers; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from mineral raw materials, namely from gypsum, carbonised plant materials, silicon dioxide, silicates or ceramics, portland cement, gypsum-cement-pozzolan compounds [gcp binders], magnesia binders; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from insulating materials, namely stone wool, glass wool, slag wool, polyurethanes, wood wool or glass wool; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of materials or products consisting of two or more layers bonded or glued together over the entire area, whereby the layers may consist of the same or different material grades and of the same or different kinds of material [laminates], namely heating foils, temperature foils, display foils, laminated insulating material, aluminium composites such as aluminium-wood composites, aluminium-composite composites such as glass-fibre-reinforced aluminium, packaging composites such as beverage carton composites, composite materials of plant materials and plastics, mineral composites such as porcelain stoneware-plastic composites; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from reinforced materials, namely fibre-reinforced plastics such as glass- or carbon-fibre-reinforced plastics, occ composites, rubber-steel composites, such as conveyor belt materials or treads for tyres, recycling materials; single- and multi-daylight mechanical or hydraulic presses for the production of shaped parts, namely continuously or intermittently operating mechanical or hydraulic presses for the production of shaped parts from materials derived from raw materials, namely plant-based raw materials, alloyed and unalloyed steels, composite materials, metal and steel sheets, organosheets, plastics, organic and inorganic materials, materials containing minerals; membrane presses, namely fluid-loaded membrane presses for the production of shaped parts, namely continuously or intermittently operating membrane presses for the production of shaped parts from materials derived from raw materials, namely plant-based raw materials, alloyed and unalloyed steels, composite materials, metal and steel sheets, organosheets, plastics, organic and inorganic materials, materials containing minerals; woodworking machines; machine tools for woodworking machines; composite-material processing machines; tools for the processing of composite materials; machines for working plastic; tools for plastic processing machines; mineral

processing machines; tools for mineral processing machines; insulating-material processing machines; tools for insulating-material processing machines; composite processing machines; tools for composite processing machines; machine tools; machines and mechanical appliances for mixing, dispersing, emulsifying and homogenising materials; agitators, tumbling mixers, conical mixers, batch mixers, screw mixers; machines and mechanical appliances for compressing, compacting, agglomerating, compounding and coating materials, such as web-shaped materials, panels, moulded products, pressed products and cast products [castings]; extrusion presses, injection moulding machines, agglomerators, heating/cooling mixers, compactors, calenders and parts of calenders, pelletisers, briquetting machines, pellet mills, wet compressors, screw compresses, double belt presses, packing presses, channel baling presses; compres- sors [machines]; resin transfer moulding machines; coating installations [coaters], namely flow coaters and bath coaters; painting machines incorporating painting lines; lacquering installations; painting robots; machines and mechanical apparatus for the conditioning of materials; fluidised bed dryers, drum dryers, screw coolers; machines and mechanical apparatus for the washing of materials; friction washers; machines and mechanical apparatus for the separation, classification, removal, degassing and filling of materials; machines and mechanical apparatus for conveying, feeding and dosing materials into a production process; apron conveyors, sliding floors, belt conveyors, bucket conveyors, tube chain conveyors, stuffing screws, archimedian screws, auger fillers, sluices, dosing valves, hydraulic or pneumatically operated feeding devices, blowing machines, load conveyors, vibratory conveyors, oscillating conveyor troughs, conveying chains and drag chain conveyors; gluing flash tube [part of a machine]; transferring machines; mechanical process engineering installations for forming a mixture of free-flowing scatter material, namely fibrous material, chip material, plastic, carbon, dry binding material, resins or mineral material, in a defined geometric shape with a defined grammage, with the help of dosing, scattering and transport equipment that has been synchronised through monitoring and measuring systems; conveyors; moving and handling equipment; conveyors and conveyor belts; lifting and hoisting equipment; process control units [mechanical]; process control instruments [mechanical]; machines and mechanical appliances for conveying, feeding and dosing materials into a production process, and parts thereof; stuffing screws; archimedian screws; auger fillers; sorting machine locks [sluices]; cell wheel dosing devices [parts of machines]; unmanned transportation conveyors being cargo handling machines; guides for machines; indoor self-driving robots for industrial use; drives for conveyors; vibrators [machines] for industrial use; valves [parts of machines]; lifting machines and installations for transporting bulk materials; lifting machines for load transport; machines and installations in the field of press automation, industrial automation and transport automation and parts therefor; transporters [machines]; valves and sluices for machines and transport systems; control and regulating units and installations for manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of material assets [goods] and semi-finished products, preferably within mechanical or chemical process engineering and general and special-purpose machine construction, vehicle construction and series production support; all of the aforementioned goods for processing continuous or finite shaped pieces and bulk materials, as well as pasty, flowable, vegetable, and fibrous materials and mixtures of materials, as well as liquids, fluid-solid mixtures and low- and high-consistency suspensions, in particular fibrous materials such as lignin-containing or lignocellulose-containing materials, composite materials such as organic sheets in particular, plastics and plastics with admixtures of perennial or annual plant components such as wood, waste wood, grass, bark, paper, cardboard, cellulose, or with components of other materials, such as textiles, waste, rubber, resins, leather, food, luxury foods, and animal feed, minerals, carbons, plastics, pigments, dyes, pharmaceuticals, chemical products, metals, composite materials, electronic scrap, cables, and old tires, parts, spare parts, accessories, and tools for the aforementioned goods, insofar as included in this class; parts, spare parts, accessories and tools for the aforementioned goods, included in this class; machine tools; power operated tools; motors, other than for land vehicles; propulsion mechanisms, other than for land vehicles; power transmission couplings [other than for land vehicles]; transmission components (except for land vehicles); agricultural implements other than hand operated hand tools; engines, drive units and parts of engines, engine housings, pistons, piston rods, piston rings, gear rods, gear wheels, toothed wheels, axles, shafts and valves, turbines, compressors, all being parts of machine; rolling mills, mills and wind turbines, in particular wind turbine foundations, casings, frameworks and rotor casings; gantry canes and parts of gantry cranes; moulds [parts of machines], in particular chill-moulds and matrices; moulds for production [parts of machines]; regulators [parts of machines]; control mechanisms for machines, engines or motors; electricity generators; machines and machine tools for treatment of materials and for manufacturing; parts of machines, namely cast iron parts, for machines and machine tools for the treatment of materials and

production; machines for generating and converting energy, for example steam engines, wind turbines, hydroelectric power plants, turbines; steam engine boilers for power generation, other than for land vehicles; woodworking machines; machine tools for woodworking machines; machine tools; woodworking machines; composite material treatment machines; tools for composite material treatment machines; machines for processing composite materials; industrial robots; material production and processing machines; rollers; thrust pieces; matrices (parts of machines); linings (parts of machines); power operated tools; motors [other than for land vehicles]; propulsion mechanisms, other than for land vehicles; power transmission couplings [other than for land vehicles]; transmission components (except for land vehicles); agricultural implements other than hand operated hand tools; agricultural, earthmoving, construction, oil and gas extraction and mining equipment; bonding machines; industrial mixing machines; shaping and moulding machines; foundry machines; metal production machines; generators; engine housings; parts of engine housings; compressors for refrigerators; compressors; machines and mechanically driven appliances as well as energy-generating installations formed therefrom and industrial drying installations heated both directly via hot gases and indirectly via steam, hot water and thermal oil; blowing engines; sound absorbers being parts of machines; heat exchangers (parts of machines); pumps for industrial heating installations and furnaces; metalworking machines; machines for processing organic and inorganic homogeneous and composite materials; machines for manufacturing structures and architecture; machines for manufacturing organic and inorganic homogeneous and composite architecture; machines for manufacturing organic and inorganic homogeneous and composite structures; machines for manufacturing simply or multiply curved organic and inorganic homogeneous and composite structures and architecture; machines for manufacturing curved organic and inorganic homogeneous and composite panels and surfaces; machines for treating organic and inorganic homogeneous and composite materials; machines and mechanical apparatus for mechanical process engineering, and installations constructed from the aforesaid goods; machines and mechanical appliances for mixing and homogenising materials; mechanical equipment for foundry machines and metal production machines; aids for producing castings, namely hoppers and filters [parts of machines]; cast iron parts for pipes [parts of machines]; atomising machines; dispensing machines; automatic dispensing machines; blending machines for chemical processing; vacuum pumps [machines]; stud tensioning technology systems; stud tensioning machines, namely for pressurised water reactors, boiling water reactors; stud tensioning devices for steam generators; single tensioners for pressurised and boiling water reactors; multi-stud tensioners; stud turning devices such as single-stud turning devices, double-stud turning devices, multi-stud turning devices, namely for industrial applications; cleaning machines, namely for industrial applications; cleaning machines for reactors; bolt cleaning machines, reactor pressure vessel bolt cleaning machines; blind hole cleaning machines, namely for industrial applications; hydraulic high-pressure components and sealing systems [parts of machines]; machines for washing materials, in particular wood, fibrous materials, food and animal foodstuffs, plastics, chemicals, pharmaceutical and cosmetic products and minerals; control appliances for machines and installations; parts and fittings for all the above goods; parts of casings, parts of engines, in particular moving parts of engines.

8 Hand tools, hand-operated; hand implements, hand-operated; cutlery; cutlery; side arms, other than firearms; razors; razors; parts and fittings for all the aforesaid goods.

9 Robotic process automation [RPA] software; recorded content; software; databases; software for monitoring, analysing, controlling and running physical world operations; physical analysing apparatus [other than for medical use]; machine learning software for analysis; artificial intelligence software for analysis; downloadable computer software for collecting, analyzing and organizing data in the field of deep learning; surveillance cameras; monitoring units [electric]; monitoring control apparatus [electric]; video cameras adapted for monitoring purposes; checking (supervision) apparatus and instruments; monitoring instruments; computer software for the monitoring of computer systems; sensors for monitoring physical movements; measuring, detecting, monitoring and controlling equipment; monitoring apparatus, other than for medical purposes; machine learning software for surveillance; sensors, detectors and monitoring instruments; cloud network monitoring software; industrial automation controls; industrial automation software; artificial intelligence software; artificial intelligence software for surveillance; interactive software based on artificial intelligence; software for the integration of artificial intelligence and machine learning in the field of big data; process monitors; process controlling software; process controlling apparatus [electric]; process controlling apparatus [electronic]; process control digital controllers; process controllers [electric]; process controlling apparatus [electric]; process controlling apparatus [electronic]; process controlling apparatus [electronic]; process controlling apparatus [electronic]; process controlling apparatus [electronic]; information technology and audio-visual, multimedia and photographic equipment; navigation,

guidance, tracking, targeting and map making equipment; data storage devices and media; data processing equipment and accessories (electrical and mechanical); communications equipment; signal cables for it, av and telecommunication; computer networking and data communications equipment; point-to-point communications equipment; computers and computer hardware; sensors; electric sensors; optical sensors; sensors for use with machine tools; sensor controllers; sensors for measuring instruments; sensors used in plant control; sensors for determining position; internet of things [iot] sensors; network communication apparatus; network operating system programs; networking software; local area networks; computer software platforms for social networking; computer software for wireless network communications; telecommunications apparatus for use with mobile networks; smart manufacturing software; smart manufacturing system controls; editing software; computer operating programs; operating systems; operating system programs; computer operating system software; factory automation software; production support software; computer programs for connecting remotely to computers or computer networks; computer hardware for remotely accessing and transmitting data; downloadable software for remotely accessing and controlling a computer; cloud servers; cloud server software; cloud computing software; application software for cloud computing services; downloadable cloud computing software; optimisation software; automatic control apparatus; automatic control apparatus; control installations (electric -); electric control apparatus; electric control apparatus; electronic controllers; electronic control units; electronic control instruments; electronic control systems; programmable controllers; industrial process control software; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded media; downloadable media; computer software; blank digital or analogue recording and storage media; coin-operated mechanisms; calculating devices; computers; computer peripheral devices; fire extinguishers; pressure indicator plugs for valves; surveying apparatus and instruments; air analysis apparatus; switchboxes [electricity]; control units for machines and installations; all of the aforementioned goods, in particular for the areas of press automation, industry automation and transport automation; apparatus for broadcasting sound, data or images; cabinets for loudspeakers; cases for loudspeakers; loudspeakers; studio monitor loudspeakers; speakers for video conferencing; multi-room audio devices; power cables; connection cables; loudspeaker cables; microphone cables; electrical power extension cords; electronic cables; connection boards [electric]; lighting control panels; instrument panels [electric]; distribution boards [electricity]; loudspeaker systems; horns for loudspeakers; speaker switches; portable speakers; speaker docks; personal speakers; speakers [audio equipment]; monitor speakers; loudspeakers with built in amplifiers; signal processors for audio speakers; led screen displays; electronic controllers; measuring, signalling, inspecting, switching and monitoring appliances and instruments; electromagnetic valves; computer software [saved] for controlling installations for heating installations and furnaces for generating heat and steam, drying installations, cooling installations, thermotechnical installations for saving energy, installations for exhaust gas purification and exhaust gas filtration, installations for exhaust air purification and exhaust air filtration, installations for air treatment, and installations for treating water; numerical controllers for controlling the aforementioned installations; measuring appliances, control appliances, regulating appliances, indicators for the aforementioned installations; fire-extinguishing devices for the aforementioned installations; video screens; all of the aforementioned goods, in particular for the areas of press automation, industry automation and transport automation; apparatus for broadcasting sound, data or images; cabinets for loudspeakers; cases for loudspeakers; loudspeakers; studio monitor loudspeakers; speakers for video conferencing; multi-room audio devices; power cables; connection cables; loudspeaker cables; microphone cables; electrical power extension cords; electronic cables; connection boards [electric]; lighting control panels; instrument panels [electric]; distribution boards [electricity]; loudspeaker systems; horns for loudspeakers; speaker switches; portable speakers; speaker docks; personal speakers; speakers [audio equipment]; monitor speakers; loudspeakers with built in amplifiers; signal processors for audio speakers; led screen displays; video screens; numerical controllers for controlling the aforementioned installations; measuring appliances, control appliances, regulating appliances, indicators for the aforementioned installations; fire-extinguishing devices for the aforementioned installations; measuring, detecting, monitoring and controlling equipment; controllers and regulators; sensors, detectors and monitoring instruments; appliances and equipment for testing, weighing, analysing and measuring materials; all of the aforementioned goods for controlling and regulating processes, machines, appliances and installations for mechanical engineering; apparatus for scientific research and laboratories; lighting transformers; fire safety installations, essentially

consisting of sliding plate fire dampers of metal and/or plastic and/or mineral materials, sliding plate smoke dampers of metal and/or plastic and/or mineral materials, smoke detectors, all of the aforementioned components also as individual goods and parts thereof; electronic monitoring systems.

11 Appliances and installations, and parts of appliances and installations for heating, cooling, steam-generating, cooking, drying, ventilating and water supply purposes; heat pumps for energy processing; industrial water treatment installations; industrial air treatment installations; industrial wastewater treatment installations; burners, boilers and heaters; drying installations; industrial ovens and furnaces [not for food and beverages] for grate firing; distillation apparatus; drying machines, humidifying (other than for medical use) and wetting apparatus, in particular for wood, fibrous materials, food and animal feed, plastics, chemical fiber and cosmetic products and minerals; machines and installations constructed therefrom for industrial drying purposes; gas/heating boilers, including industrial steam boilers, water tube boilers, saturated steam and hot steam boilers, hot water boilers, waste heat boilers, fire-tube boilers, special boilers for thermal disposal and afterburning, including installations for stoking and ash removal, process heat generation, heat transfer oil installations and in particular including installations that essentially consist of heat transfer heaters, heat transfer pumps, heat exchangers and heat transfer lines; heat recovery installations; ventilation stacks and exhaust air installations; appliances and installations connected to heating boilers for heating purposes, namely regulating and safety accessories for water and gas pipes, taps for pipes and pipelines, water supply installations; pressure vessels, expansion tanks, valves, taps for heat transfer and steam pipes, appliances for the treatment of heat transfer media; cooling installations for industrial purposes; oil burners; gas burners; dust and granule burners and combination burners as well as surface burners; oil burner control units; automatic gas stokers; appliances and equipment for exhaust air purification and exhaust gas purification; gas cleaners and purifiers; heating, ventilating, and air conditioning and purification equipment (ambient); air filtering installations; water filtering apparatus; lighting apparatus; lamp mantles; safety lamps; incandescent light bulbs; lighting installations; security lighting; lamps; lamp shades; light diffusers; lamp reflectors; floodlights; luminaires for security use; strobe lights [light effects]; light projectors; decorative lights; electric lamps; lights for vehicles; led luminaires; light-emitting diode [led] light bulbs; led lighting installations; fans [air-conditioning]; fans [parts of air-conditioning installations]; evaporators; air deodorizing apparatus; air heating apparatus; air filters; air filtering installations; air sterilizers; air dryers; refrigerators and refrigerating installations; refrigerating chambers; chilling machines; cooling installations for panels; cooling installations for reactors; cooling installations for liquids; air conditioning installations and air conditioning apparatus; ventilation installations, essentially consisting of ventilation grilles, ceiling diffusers, slot diffusers, floor diffusers, window parapet induction diffusers, swirl diffusers, induction swirl diffusers, ventilation valves, multi-leaf dampers, weather grilles, airtight steel doors, fans, water level regulators [valves] being parts of sanitary installations, the aforementioned components also as individual goods and parts thereof; apparatus for filtering water, consisting of automatic roll filters, wall and channel filters, bag filters, particulate filter modules for ceilings, mini dust extractors, centrifugal separators and filter media, namely glass fibre paper, glass fibre matting, randomly-oriented-fibre fleeces and activated carbon, all being parts of sanitary installations; the aforementioned components also as individual goods and parts thereof; hydrogen reactors and parts thereof; parts and fittings for all the aforesaid goods, included in this class.

12 Vehicles; apparatus for locomotion by land; apparatus for locomotion by air; apparatus for locomotion by water; powertrains, including engines and motors, for land vehicles; rail vehicles; rail vehicles; autonomous cars; load carrying vehicles; trolleys; sledges for transportation; self-driving transport vehicles; autonomous vehicles; transport vehicles for internal transport tasks; vehicles and conveyances; apparatus for locomotion by land; appliances for locomotion by air and appliances for locomotion by water, in particular for carrying loads, freight or passengers, in particular railbound or non-railbound vehicles and conveyances, and appliances for locomotion by land, air or water; unmanned, manned, autonomous, remotely operated, automated guided and manually guided vehicles and conveyances, and appliances for locomotion by land, air or water; wheeled vehicles; land vehicles and conveyances; mobility conveyances; rail vehicles, in particular trains, locomotives, trams, underground railway trains, magnetic trains; elevated trains, cable cars, chairlifts, rack railway trains, and vehicles on rails, such as sledges for transportation, trolleys, mine cars, handcars; air and space vehicles; water vehicles; cars, carts and trailers; vehicles adapted for military purposes, in particular armoured vehicles; parts and components for vehicles and appliances for locomotion by land, air or water; hulls and superstructures for boats, ships, maritime, aviation and local transport structures; structural parts for boats, ships, maritime, aviation and local transport structures; parts and accessories for all of the aforementioned goods, included in this class, in particular casings, chassis, drive units, propulsion mechanisms, gearboxes and gearbox

parts, steering racks, gearbox casings and parts of gearbox casings, axles and shafts, wheels, protective heat shields, brake discs, brake drums; powertrains, including engines and motors, for land vehicles; rail vehicles; rail vehicles; autonomous cars; load carrying vehicles; trolleys; sledges for transportation; self-driving transport vehicles; autonomous vehicles; transport vehicles and transport appliances for machine and plant construction, not included in other classes; hulls and superstructures for boats, ships, maritime, aviation and local transport structures; structural parts for boats, ships, maritime, aviation and local transport structures; and parts and fittings for the aforesaid goods; driverless transport systems; hulls and superstructures for boats, ships, maritime, aviation and local transport structures.

17 Unprocessed and semi-processed rubber, gutta-percha, gum, asbestos, mica and substitutes for all these materials; goods and semi-finished products of plastics or resins, namely for use in manufacturing processes; goods and semi-finished products of plastics or resins in extruded form, namely for use in manufacturing processes; goods and semi-finished products of fibre composite materials, namely for use in manufacturing processes; fibre-matrix semi-finished products for use in manufacturing processes; thermoplastic laminate composite materials; thermosetting laminate composite materials; goods and semi-finished products made of natural fibre composites, namely for use in manufacturing processes; asbestos sheets; plastic sheeting for agricultural purposes; viscose sheets, other than for wrapping; self-adhesive plastic sheets for use in industry; injection-moulded goods and semi-finished products of plastic, thermoplastic polymer, thermosetting plastic, reinforced plastic, carbon-fibre-reinforced plastic, glass-fibre-reinforced plastic, composite products of artificial or natural fibres for insulating, sealing, packing and padding, composite products of resin and carbon or resin and ceramics; compression-moulded goods and semi-finished products of plastic, thermoplastic polymer, thermosetting plastic, reinforced plastic, carbon-fibre-reinforced plastic, glass-fibre-reinforced plastic, composite products of artificial or natural fibres for insulating, sealing, packing and padding, composite products made from resin and carbon or resin and ceramics; sealing materials; packing materials; insulating materials; flexible hoses, not of metal; flexible hoses, not of metal; flexible hoses, not of metal; artificial fibres made from synthetic polymers [not for textile use] such as polycondensation fibres, polymerisation fibres, polyaddition fibres; all of the aforementioned goods also in conjunction with plastics, in particular with a thermoplastic shell; all of the aforementioned goods for industrial and commercial purposes, namely for making composite products from artificial or natural fibres, for example wpc products, insulating, sealing and packing materials and materials for padding; goods [semi-finished products] made of plastic or composites involving plastics, in particular wpc goods; the aforementioned goods in the form of blocks, also being fabrics, mats and laminates; fibre-reinforced plastics for industrial purposes [as semi-finished products]; fibres infused with natural or synthetic resin [not for textile use]; artificial insulating fibres for reinforcing concrete, cement and mortar; artificial insulating fibres made from natural polymers, namely, cellulose, rubber, plant protein, animal protein; the aforementioned goods also in conjunction with plastics, in particular with a thermoplastic shell; natural fibres as insulating materials, in particular made from cotton, kapok, poplar fluff, bamboo, palm tree, stinging nettles, hemp, jute, linen, kenaf, ramie, wood, sisal, manila, coconut, wool, hair; the aforementioned goods also in conjunction with plastics, in particular with a thermoplastic shell; insulating materials made from materials containing cork and bark, from plastic and from material mixtures of plastic, cork and/or materials containing bark; all of the aforementioned goods in the form of agglomerates and compounds; semi-finished products of plastic in the form of agglomerates and compounds, included in class 17; parts and fittings for all the aforesaid goods.

19 Building materials, not of metal, namely for building purposes; rigid pipes, not of metal, for building; asphalt; pitch; tar; bitumen; buildings, transportable, not of metal; monuments, not of metal; building materials, not of metal; shutters, shuttering and moulds [not of metal] for concrete; shuttering, shuttering and moulds for concrete, organic and inorganic composite materials and glass; shuttering, shuttering and moulds for precast and cast-in-situ concrete, organic and inorganic composite materials and glass; composite structures, namely non-metallic composite structures [building material]; building structures, not of metal; architecture [structures] of concrete, organic and inorganic composite materials or glass; mouldings, not of metal, for building; structures for use in the building industry, in bridge construction and in the construction of energy-generating installations; structures for use in architecture; flap valves, not of metal or plastic, namely for water pipes; flap valves, not of metal or plastic, namely for drainage pipes; ducts, not of metal, for ventilating and air-conditioning installations; building products (non-metallic); building materials, not of metal, in the form of rods, blocks, boards, profiles, containers, mouldings, fleeces, felts, fabrics; non-metal cladding for windows; non-metallic window frames; non-metal door panels; door casings, not of metal; non-metal coverings for ceilings; roof coverings, not of metal; wall panels, not of metal; the aforementioned goods as composites, especially with fibres or composite

fibres; natural fibres [building materials not of metal] for building and construction purposes, in particular as an admixture in building materials that can be cast and hardened, in particular cement, mortar and concrete; parts and fittings for all the aforesaid goods.

35 Advertising; business management; business organization; business administration; office functions; wholesale and retail services, also online, with machines and machine tools for material processing and production, industrial robots, material production and processing machines, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from raw materials, machine tools, machines and mechanical appliances for mechanical process engineering, and installations, machines and mechanical appliances constructed from the aforementioned goods for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for compressing, compacting, agglomerating, compounding and coating materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, spare parts, accessories and tools for the aforementioned goods, robotic process automation [rpa] software, recorded data, software, databases, software for monitoring, analysing, controlling and running physical world operations, physical analysing appliances [other than for medical use], machine learning software for analysis, artificial intelligence software for analysis, downloadable computer software for collecting, analysing and organizing data in the field of deep learning, monitoring units [electric], monitoring control appliances [electric], monitoring instruments and appliances, computer software for the monitoring of computer systems, sensors for monitoring physical movements, industrial automation controls, industrial automation software, artificial intelligence software, process monitors, process controlling software, process controlling appliances [electric], process controlling appliances [electronic], digital process controllers, process controllers [electric], process controllers [electronic], data processing equipment and accessories [electrical and mechanical], communications equipment, signal cables for it, av and telecommunication, computer networking and data communications equipment, point-to-point communications equipment, computers and computer hardware, sensors, network communication appliances, network operating system programs, networking software, local area networks, smart manufacturing software, smart manufacturing system controls, editing software, computer operating programs, operating systems, operating system programs, computer operating system software, factory automation software, production support software, computer programs for connecting remotely to computers or computer networks, computer hardware for remotely accessing and transmitting data, automatic control appliances, control installations [electric], electric control appliances, electronic controllers, programmable controllers, industrial process control software, computer software, computers, computer peripheral devices, parts and accessories for all of the aforementioned goods; business management consultancy; administrative support for the operation of energy-generating and energy-converting installations such as nuclear installations and energy installations powered by natural forces, such as installations powered by wind or water; administrative support for the operation of facilities for sorting low-level radioactive waste, caissons and housings, automatic drum cappers, hot cells, in-drum presses, cementation of liquid waste, fuel element disposal management, data and calculations for protection against radiation, process computer systems, personal and job-based dose control; market analysis, marketing and services relating to customer loyalty programmes regarding machines and installations for carrying out mechanical or chemical process engineering, and regarding special parts, special appliances, special machines, special installations and parts of special installations for carrying out mechanical or chemical process engineering; wholesale and retail of machines and installations for carrying out mechanical or chemical process engineering, and of special parts, special appliances, special machines, special installations and parts of special installations for carrying out mechanical or chemical process engineering; wholesale and retail of machines and installations for the production of pressed goods; market analysis, marketing and services relating to customer loyalty programmes regarding machines and installations for the production of pressed goods; all of the aforementioned goods also as virtual goods.

37 Repair or maintenance of machines and apparatus for woodworking; installation services of machines and machine tools for treatment of materials and for manufacturing; installation services of industrial robots; installation services of material production and processing machines; installation services of mills and crushing machines; installation services of moving and handling equipment; installation services of conveyors and conveyors belts; installation services relating to: lifting and hoisting equipment, installation services relating to: woodworking machines; installation services of machine tools for woodworking machines; repair and maintenance of machines and machine tools for treatment of materials and for manufacturing; repair and maintenance of

industrial robots; repair and maintenance of material production and processing machines; repair and maintenance of mills and crushing machines; repair and maintenance of moving and handling equipment; repair and maintenance of conveyors and conveyors belts; repair and maintenance of lifting and hoisting equipment, elevators and escalators; repair and maintenance of woodworking machines; repair and maintenance of machine tools for woodworking machines; installation of wireless telecommunications equipment and wireless local area networks; installation of plant; computer hardware and telecommunication equipment installation, maintenance and repair; construction; mining extraction; oil drilling; gas drilling; installation of audiovisual equipment; advisory services relating to the installation of audiovisual equipment; advisory services relating to the installation of lighting apparatus; installation of stands for trade fairs; installation of stands for conferences; installation of stands for exhibitions; building of trade fair and exhibition stands; installation of lighting apparatus; installation of plant; installation of communication equipment; installation of high tensile structures; maintenance of communications equipment; plant maintenance; plant refurbishment; building construction and repair; repairing construction works; scenery construction; construction, installation, repair, maintenance, renovation, refurbishment and overhaul of industrial heating installations and furnaces for generating heat and steam; installations for protecting the environment, and installations for industrial drying purposes; installation, rebuilding, commissioning, maintenance, cleaning and repair of machines and mechanical appliances and installations for mechanical process engineering manufactured therefrom; replacement of parts of machines, in particular of wear parts and machine tools; locksmithing in the context of the aforementioned services; monitoring, remote diagnostic and remote maintenance of machines and installations made therefrom, also by means of remote monitoring systems; repair or maintenance of: woodworking machines and appliances, machines and appliances for processing composite materials, machines and appliances for plastics working, machines and appliances for processing mineral materials, machines and appliances for processing insulating materials, machines and machine tools for treatment of materials and for manufacturing, industrial robots, material production and processing machines, conveyors and conveyors belts, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials, machines and mechanical appliances for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for mixing and homogenising materials, machines and mechanical appliances for conditioning materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for separating bulk goods of different densities and/or sizes, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, all of the aforementioned goods for processing piece and bulk goods as well as paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and liquids, fluid/solid mixtures and low- and high-consistency suspensions, process control units [mechanical], process control instruments [mechanical], machines and mechanical appliances for mechanical process engineering, and installations constructed from the aforementioned goods; installation services relating to: woodworking machines and appliances, machines and appliances for processing composite materials, machines and appliances for plastics working, machines and appliances for processing mineral materials, machines and appliances for processing insulating materials, machines and machine tools for treatment of materials and for manufacturing, industrial robots, material production and processing machines, conveyors and conveyors belts, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials, machines and mechanical appliances for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for mixing and homogenising materials, machines and mechanical appliances for conditioning materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for separating bulk goods of different densities and/or sizes, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, all of the aforementioned goods for processing piece and bulk goods as well as paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and liquids, fluid/solid mixtures and low- and high-consistency suspensions, process control units [mechanical], process control instruments [mechanical], machines and mechanical appliances for mechanical process engineering, and installations constructed from the aforementioned goods; installation of: woodworking machines and appliances, machines and appliances for processing composite materials, machines and appliances for plastics working, machines and appliances for processing mineral materials, machines and appliances for processing insulating materials, machines and machine tools for treatment of materials and for manufacturing, industrial robots,

material production and processing machines, conveyors and conveyors belts, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials, machines and mechanical appliances for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for mixing and homogenising materials, machines and mechanical appliances for conditioning materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for separating bulk goods of different densities and/or sizes, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, all of the aforementioned goods for processing piece and bulk goods as well as paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and liquids, fluid/solid mixtures and low- and high-consistency suspensions, process control units [mechanical], process control instruments [mechanical], machines and mechanical appliances for mechanical process engineering, and installations constructed from the aforementioned goods; refurbishment of: woodworking machines and appliances, machines and appliances for processing composite materials, machines and appliances for plastics working, machines and appliances for processing mineral materials, machines and appliances for processing insulating materials, machines and machine tools for treatment of materials and for manufacturing, industrial robots, material production and processing machines, conveyors and conveyors belts, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials, machines and mechanical appliances for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for mixing and homogenising materials, machines and mechanical appliances for conditioning materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for separating bulk goods of different densities and/or sizes, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, all of the aforementioned goods for processing piece and bulk goods as well as paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and liquids, fluid/solid mixtures and low- and high-consistency suspensions, process control units [mechanical], process control instruments [mechanical], machines and mechanical appliances for mechanical process engineering, and installations constructed from the aforementioned goods; maintenance or repair of: woodworking machines and appliances, machines and appliances for processing composite materials, machines and appliances for plastics working, machines and appliances for processing mineral materials, machines and appliances for processing insulating materials, machines and machine tools for treatment of materials and for manufacturing, industrial robots, material production and processing machines, conveyors and conveyors belts, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials, machines and mechanical appliances for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for mixing and homogenising materials, machines and mechanical appliances for conditioning materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for separating bulk goods of different densities and/or sizes, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, all of the aforementioned goods for processing piece and bulk goods as well as paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and liquids, fluid/solid mixtures and low- and high-consistency suspensions, process control units [mechanical], process control instruments [mechanical], machines and mechanical appliances for mechanical process engineering, and installations constructed from the aforementioned goods; rental of machine tools; mechanical and electrical installation of machines and installations for the production and processing of goods using mechanical or chemical process engineering; mechanical and electrical installation work for industrial custom manufacture, namely the custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production or processing of goods containing natural fibres, of composite structures, namely non-metallic composite structures, and of metallic composite materials as well as composite materials containing plastic; mechanical and electrical installation work for industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production of pressed goods; civil construction services; construction consultancy services; erection, construction and installation of energy-generating and energy-converting installations such as nuclear installations and energy installations powered by natural forces, such as installations powered by

wind or water; erection, construction and dismantling of facilities for sorting low-level radioactive waste, caissons and housings, automatic drum cappers, hot cells, in-drum presses, cementation of liquid waste, fuel element disposal management, data and calculations for protection against radiation, process computer systems, personal and job-based dose control; drilling and deep drilling work; painting.

40 Material processing using mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, for example pressing; material processing using chemical engineering; recycling of waste; recycling of waste; air purification; water treating; printing; preservation of food; preservation of drink; metal treating; treating [forging] of metal; treating [stamping] of metal; treating [stamping] of metal; treating [shaping] of metal; treating [shaping] of metal; treating [embossing] of metal; treating [tempering] of metal; treating [tempering] of metal; treating [enamelling] of metal; metal casting; metallurgical smelting; metal melting services; custom manufacture of tools for others; die casting; die-casting of metals; machining parts for others; metal tempering; treating [tempering] of metal; metal finishing; shaping of metal components; processing of metal surfaces using precision grinding techniques; treatment of metal parts to prevent corrosion using hot-dip galvanizing and powder coating processes; millworking; blast treatment; sandblasting services; metal brazing; chromium plating of metal articles; hard chromium plating and hard nickel plating of metal surfaces; extruding of metal alloys; surface finishing of metal articles; galvanising of metal; shot blasting; metal hardening; metal laminating; processing of metal surfaces by abrasive polishing; metalworking; polishing of metals; metal stamping; cutting of metal; treatment and coating of metal surfaces; vulcanization [material treatment]; custom construction of machines; custom manufacture and assembly services; custom moulding services; custom 3d printing for others; 3d reproduction services; custom manufacture and processing of organic and inorganic homogeneous and composite goods, semi-finished products, structures and architecture, namely for the building industry, the production of panels, vehicle and aircraft construction, machine and plant construction in a level form or in a simply or multiply curved form; recycling of waste; recycling of waste; recycling of recycling materials, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste; material treatment services in connection with recycling, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste; air purification; water treating; printing; food processing; preservation of drink; material processing of piece and bulk goods, and of paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and of liquids, fluid/solid mixtures and low- and high-consistency suspensions; material processing of ligno-cellulosic materials, of composite materials such as organosheets in particular, of plastics, and of plastics with the addition of wood, waste wood, paper, cardboard, cellulose, textiles, waste, rubber, latex, resins, leather, food, luxury foods and animal foodstuffs, minerals, pigments, colourants, pharmaceuticals, chemical products, metals, composite materials, electronic waste, cables and old tires; material processing of temperature-sensitive materials using mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, for example pressing; material processing of temperature-sensitive materials using chemical process engineering; material processing in the form of the shredding, chopping, cutting, delamination, defibration, grinding, cryogenic grinding, fine and precision grinding, mixing, coating, wetting, pelletising, compounding, compacting, granulation, agglomeration, coagulation, separation and recycling of materials as a service for others; processing of fibrous materials and waste wood to form cellulose powder and wood flour; processing of minerals and metals to form mineral and metal powders; rental of machines and mechanical appliances for processing and converting materials for custom manufacture; mechanical or chemical treatment or processing of materials; generation of energy, in particular hot gases, steam, thermal oil and electricity; electricity generating; incineration of waste and trash; waste treatment [transformation]; steam and electricity generating from biomass; air purification; industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production or processing of goods containing natural fibres, of composite structures, namely non-metallic composite structures, and of metallic composite materials as well as composite materials containing plastic; industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production of pressed goods; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for [mechanical] process engineering; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for [chemical] process engineering; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for the production of special goods or

goods produced in series production; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for the production of endless goods, namely [flat] web-shaped goods, such as fibrous goods, namely plant-based panels, goods containing minerals, namely panels containing minerals, namely goods containing stone wool or composite materials such as organosheets, ferrous and non-ferrous metallic goods or goods containing plastic, namely panels containing plastic; industrial production and custom manufacture of series-produced or special structural parts by casting, shaping, separating, for example cutting, joining, for example soldering, coating, for example varnishing, changing material properties, for example hardening; industrial production and custom manufacture, namely of turned parts of metal, turned parts of plastic, large turned parts such as shafts and cylinders for machines and installations, milled parts of metal, milled parts of plastic, large milled parts such as parts for machine and plant construction, namely for the construction of treatment installations for fibrous materials, intermittently or continuously operating presses and large presses for processing fibrous materials such as paper, cardboard, engineered woods, fibre composites, plastics, composite materials, iron, steel, cast materials; welding services; processing of large structural parts with individual volumes of at least 500 litres using chemical or mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, in particular pressing; coating of coatable material, namely wood, paper, cardboard, cellulose, textiles, plastics, rubber, minerals, pharmaceuticals, chemical products, metals, composite material; custom manufacture of models for generating moulds for making castings, preferably large castings; moulding shop services for generating moulds for the manufacture of castings, in particular large castings; processing of moulds for the manufacture of castings, in particular large castings; fettling shop services for processing moulds for the manufacture of castings, in particular large castings; metallurgical smelting services for processing moulds for the manufacture of castings, in particular large castings; metal treating and casting, cooling of metal casting products, hardening of metal and metal products; production of machines, mechanical appliances and installations for mechanical process engineering; consultancy in the field of the manufacture of flat and simply or multiply curved or structured organic and inorganic homogeneous and composite goods, semi-finished products and structures.

41 Educational instruction; training; entertainment services; sporting activities; cultural activities; instruction and training of users and service staff, namely relating to industrial production installations; instruction and training of users and service staff, namely relating to the use of machines, installations and parts of installations for mechanical or chemical process engineering; instruction and training of users and service staff, namely relating to heating installations and furnaces for generating heat and steam, exhaust gas purification and drying installations; instruction and training of users and service staff, namely relating to energy-generating installations; instruction and training of users and service staff, namely relating to installations processing natural fibres; training and instruction of users and service staff, namely relating to the operation of presses, namely of continuously or intermittently operating presses and large presses, of single- or multi-daylight presses, of presses for generating endless goods, namely web products in the form of natural-fibre-based web goods for the production of panels, in the form of organically or inorganically based web goods for the production of panels, in the form of composite-forming web goods for the production of composite materials, such as organosheets; instruction and training of users and service staff, namely relating to mills and refiners; instruction and training of users and service staff, namely relating to plastic-processing machines and installations; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of industrial machines, installations and parts of installations, namely of machines, installations and parts of installations for the production of material assets; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of installations for mechanical or chemical process engineering; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of software, namely of software for controlling industrial installations, such as production installations or installations for mechanical or chemical process engineering and parts of these installations; rental of audio/visual and photographic equipment and facilities; rental services relating to equipment and facilities for education, entertainment, sports and culture; arranging and conducting of entertainment events; provision of recreational events; organizing cultural and arts events; organisation of sporting events; organisation of parties; party planning [entertainment]; information and advisory services relating to entertainment; organising of shows for entertainment purposes; entertainment services; entertainment, sporting and cultural activities; radio entertainment; audio-visual display presentation services for entertainment purposes; arranging of presentations for entertainment purposes; entertainment services provided at discotheques; entertainment services relating to sport; musical entertainment; production of sound

recordings; organization of entertainment events; organisation of entertainment and cultural events; organisation of educational events; conducting of cultural events; conducting of educational events; training services relating to the adaptation and use of monitoring systems, namely of vibration measurements and vibration measurement systems, cutting monitoring and cutting monitoring systems, blade vibration measurements and blade vibration measurement systems, soil analyses and soil analysis systems, environmental system analyses and emission monitoring, and environmental system analysis and emission monitoring as well as forecasts derived therefrom and the necessary scientific and engineering calculations, soil information analyses as well as soil information systems and soil protection cadastral systems and the use and evaluation thereof, the electronic maintenance of structures and bodies of water, the creation, operation, providing, further development and evaluation of climate databases, statistical ground water analyses, the creation, operation, providing, further development and evaluation of drinking water information systems and other database and information systems, such as government information systems, soil information systems and soil protection registers, the electronic maintenance of structures and bodies of water, computer-aided calibration system, document management system, energy data balancing and budgeting, the management of occurrence reports, fuel element information and reporting systems, fuel element disposal management, measurement and laboratory data management and reporting system, services relating to nuclear physics, mobile data collection, the management of occupationally exposed persons, such as persons who are classed as occupationally exposed in accordance with the german radiation protection ordinance, personal and job-based dose control, data and calculations for radiation protection, operation and providing of process computer systems, calculation, manufacture, operation and providing of location-optimised process computer systems for monitoring and control on the basis of standards that are tried-and-tested in the industry, and of project information systems and radiological spacial data and of process information systems.

42 Development of computer based networks; design and development of networks; implementation of computer programs in networks; computer aided design for manufacturing operations; engineering consultancy relating to manufacture; technological services relating to manufacture; design and development of computer hardware for the manufacturing industry; editing of computer programs; cloud computing; cloud hosting provider services; cloud storage services for electronic files; cloud storage services for electronic data; providing virtual computer systems through cloud computing; providing virtual computer environments through cloud computing; consulting in the field of cloud computing networks and applications; programming of electronic control systems; scientific and technological services and research and design relating thereto; industrial analysis; industrial research; industrial design; quality control; authentication services; design and development of computer hardware and software; planning, development and technical project planning of machines, mechanical appliances and installations for mechanical process engineering; services of an engineer in connection with the provision of the aforementioned services; research in the field of mechanical process engineering; laboratory analysis of materials and clinical trials relating to the treatment of materials, in particular the conveyance, dosing, crushing, mixing, agglomeration, compressing, conditioning, separation and sorting of materials; process-related technical consultancy in connection with the operation of machines, mechanical appliances and installations for mechanical process engineering manufactured therefrom; industrial testing, calibration, condition monitoring; it services; software development, programming and implementation, in particular to monitor and control machines, installations and processes for mechanical process engineering; engineering services; technical research; technical project studies; preparation of reports relating to scientific research on electrical energy; electric meter reading and data analysis for energy auditing purposes; research and development of new products relating to environment protection; services of engineers and inspections in the field of energy generation; quality control and assessment services; construction drafting, building design, technical project planning, technical project management, technical building supervision, quality control and assurance in the area of industrial heating installations and furnaces for generating heat and steam, industrial drying installations and environmental engineering; science and technology services; design services; custom design services; interior design services and information and advisory services relating thereto; industrial design; design, development and implementation of software; construction drafting; consultancy in the field of construction drafting; computer design services; design services relating to interior decorating for homes; technological services; services relating to industrial design, architectural consultancy; design services for architecture; engineering services; consultancy in the field of engineering; consultancy in the field of engineering, namely the design of installations and parts of installations for mechanical or chemical process engineering, and the refurbishment of installations and parts of installations for mechanical or chemical process engineering; consultancy in the field of engineering, namely the design of installations and parts of

installations for producing goods and semi-finished products, namely organic and inorganic panels, fibreboard, composite panels, organosheets, gypsum boards, plastic panels, wpc panels, energy carrier panels; computer software design; services relating to the planning of energy-generating and energy-converting installations such as nuclear installations, energy installations powered by natural forces, such as installations powered by wind or water; services relating to the planning of facilities for sorting low-level radioactive waste, caissons and housings, automatic drum cappers, hot cells, in-drum presses, cementation of liquid waste, fuel element disposal management, data and calculations for protection against radiation, process computer systems, personal and job-based dose control; technical consulting, and engineering services and technological consultancy relating to concept development, plan development/design, planning and support during the approval process, advice regarding the selection of the correct business partner, project execution, project support, project management, supervision/optimisation of revision processes, quality monitoring and construction supervision, creation and checking of documentation; testing and quality control of monitoring systems, namely of vibration measurements and vibration measurement systems, cutting monitoring and cutting monitoring systems, blade vibration measurements and blade vibration measurement systems, soil analyses and soil analysis systems, environmental system analyses and emission monitoring, and environmental system analysis and emission monitoring as well as forecasts derived therefrom and the necessary scientific and engineering calculations, soil information analyses as well as soil information systems and soil protection cadastral systems and the use and evaluation thereof, the electronic maintenance of structures and bodies of water, the creation, operation, providing, further development and evaluation of climate databases, statistical ground water analyses, the creation, operation, providing, further development and evaluation of drinking water information systems and other database and information systems, such as government information systems, soil information systems and soil protection registers, the electronic maintenance of structures and bodies of water, computer-aided calibration system, document management system, energy data balancing and budgeting, the management of occurrence reports, fuel element information and reporting systems, fuel element disposal management, measurement and laboratory data management and reporting system, services relating to nuclear physics, mobile data collection, the management of occupationally exposed persons, such as persons who are classed as occupationally exposed in accordance with the german radiation protection ordinance, personal and job-based dose control, data and calculations for radiation protection, operation and providing of process computer systems, calculation, manufacture, operation and providing of process of location-optimised process computer systems for monitoring and control on the basis of standards that are tried-and-tested in the industry, and of project information systems and radiological spacial data and of process information systems; providing temporary use of on-line non-downloadable software for importing and managing data; preparation of reports in the field of measurement and laboratory data; software creation and further development, and the use of software for costing nuclear dismantling projects, waste tracking and documentation, the radiological spatial data project information system; design of models for generating moulds for making castings, preferably large castings; testing such as vibration measurements, temperature profile analyses, and temperature profile adjustment; technological engineering analysis regarding bearings, couplings, belt pulley alignments; performance measurement; operating point measurement; pressure measurement; volume flow measurement; mass flow measurement; technological consultancy in the field of measurement and calculations for the adjustment of the operating materials.

45 Licensing of computer software [legal services].

Name and address of Applicant:	Siempelkamp Maschinen- und Anlagenbau GmbH GmbH Germany Siempelkampstr. 75 47803 KrefeldDE
Date of filing:	10/04/2025

biotechne spatial

Advertised under section 28(1) of Trade Mark Ordinance 2001. (Rule 29(1)) of Trade Marks Rule 2004.

Application No: 1915005

Title **bio-techne spatial**

Class: 1,9,42

Goods or services: 1 Reagents and chemicals for scientific, medical research, clinical, life science, laboratory, pharmaceutical research, and diagnostic use; diagnostic chemical and biological reagent kits consisting primarily of probes, buffers, amplifiers and other reagent components used for molecular testing for scientific, medical research, clinical, life science, laboratory, pharmaceutical research, and diagnostic use; reagents, namely recombinant proteins and antibodies, for scientific, medical research, clinical, life science, laboratory, pharmaceutical research, and diagnostic use; fluorescent dyes for scientific, medical research, clinical, life science, laboratory, pharmaceutical research, and diagnostic use; oligonucleotides for scientific, medical research, clinical, life science, laboratory, pharmaceutical research, and diagnostic use.

9 Electronic analyzers instruments other than for medical use for testing and analyzing tissues and chemical and biological substances for the presence, absence, or quantity of malignant cells or tumors in humans, animals, plants, or microorganisms, for research and laboratory use; detecting, testing, inspecting apparatus and instruments for research and laboratory use in the field of immunohistochemistry, in-situ hybridization, immunofluorescence, immunocytochemistry, immunocytofluorescence, and in-situ sequencing, namely, multiplexors, and hyperplex imaging apparatus for use in spatial biology, to discover, test, and validate biomarkers, and describe the composition and spatial distribution of cells, and the activity of the immune response occurring within organisms affected by cancer; laboratory apparatus and instruments for use in immunohistochemistry, in situ hybridization, immunofluorescence, immunocytochemistry, immunocytofluorescence, and in-situ sequencing, namely, microscopes, and optical profilers; laboratory apparatus, instruments and devices for biology, microfluidics and bioanalysis, namely, integrated circuits, microfluidic chips in the nature of integrated circuits, DNA chips, biochips for research or scientific purposes, microchips, microfluidic microchips, micro lab-on-chips, namely, microchips, microprocessors, microfluidic microprocessors, and measurement sensors other than for medical use used to measure biomarker expression levels in samples; analysis apparatus for research and laboratory use other than for medical use for use in immunohistochemistry, in-situ hybridization, immunofluorescence, immunocytochemistry, immunocytofluorescence, and in-situ sequencing, namely, research laboratory analyzers for multi-omics analysis of cells, tissues, and chemical and biological samples, for evaluation of elution efficiency and marker's epitope stability in samples, and for checking and controlling fluidic processes for high-precision reagent delivery and incubation; microfluidic analysis apparatus other than for medical use for research and laboratory use in the field of sequential immunofluorescence; microfluidic systems, namely, sample processing devices in the nature of rigid plates made of glass and silicon and flexible and stretchable plates made of polymer that include a set of miniaturized fluidic channels and tubes, reservoirs, pumps and microsensors for the study and analysis of chemical and biological samples; electronic imaging devices for laboratory use for generating, reconstructing, analyzing, monitoring, segmenting, quantifying and storing microscope images of chemical and biological samples.

42 Molecular testing and services, namely, clinical diagnostics, scientific research, custom design and development of molecular assays, and processing and analysis of molecular assays; chemical research services; biochemical research and development services; medical research services; biological research laboratory services.

Class: 9,14,35,37

Goods or services: 9 Surveying apparatus and instruments; emergency signal transmitters; emergency watches in the nature of smartwatches; watch with a distress beacon being wearable luminous safety beacons; time recording apparatus; apparatus for recording, transmission and reproduction of sound and images; portable electronic apparatus providing access to the internet as well as data transmission, reception, namely, computer hardware with embedded communication software for providing access to the internet; portable computer hardware; internet-connected watches being smartwatches that communicate data to smartphones; smartwatches; blank DVDs and other digital recording media in the nature of blank magnetic data carriers; optical data media being blank optical data carriers; magnetic data media being blank magnetic data carriers; blank USB flash drives; optical goods, namely, optical lenses; optical glass filters, optical lenses for sunglasses; spectacles, sunglasses, sports glasses, spectacle frames, spectacle glasses and spectacle cases, optical glasses, computer bags, cases and holders for computer tablets, cases and holders for portable telephone; leather cases for mobile phones and tablets; replacement parts for the aforementioned goods; downloadable virtual goods, namely, image files featuring horological and chronometric instruments and parts thereof, watches, time pieces, precious metals and their alloys, jewelry, precious and semi-precious stones, non-medicated cosmetics and toiletry preparations, non-medicated dentifrices, perfumery and essential oils, scented water and fragrances, bleaching preparations and other substances for laundry use, cleaning, polishing, scouring and abrasive preparations, hygiene and beauty care utensils, stickers and temporary tattoos, paper and cardboard, printed matter and printed publications, bookbinding material, photographs, writing instruments, stationery and office requisites except furniture, drawing materials and materials for artists, paintbrushes, instructional and teaching materials, plastic sheets and bags for wrapping and packaging, bags, leather and imitation leather goods, animal skins and hides, luggage and carrying bags, umbrellas and parasols, walking sticks, whips, harness and saddlery, accessories for animals in the nature of collars, leashes, and clothing, household or kitchen utensils and containers, cookware and tableware except forks, knives and spoons, articles for cleaning purposes, unworked or semi-worked glass except building glass, glassware, porcelain and earthenware, drinking vessels, furniture, textiles, eyewear, eyeglasses and sunglasses, smart watches, cash registers, calculating devices, computers and computer peripheral devices, diving suits and divers' masks, ear plugs and nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming, fire-extinguishing apparatus, clothing, footwear, headwear, belts, neckties, gloves, hosiery, scarves and shawls, furs, coffee and artificial coffee, tea, cocoa and chocolate, preparations

made from cereals, edible ices, sweeteners, salt, sweets and candy, biscuits, decorations, fruit beverages and fruit juices, syrups and other preparations for making non-alcoholic beverages, mineral and aerated waters, non-alcoholic beverages, beers and alcohol-free beer, non-alcoholic cocktails, alcoholic beverages except beer, alcoholic preparations for making beverages, aperitifs, liqueur, wine, alcoholic essences and extracts, digesters being liqueurs and spirits, cocktails, rice alcohol, rum, sake, vodka, whisky, gin; downloadable digital files of watches and watch-making authenticated by non-fungible tokens; film, sound and video recordings featuring music, news and current events, watches, and jewelry; blank audio tapes, blank video cassettes, blank vinyl records and other analogue recording media, namely, blank floppy computer discs; blank compact discs; digital music downloadable from the internet; downloadable podcasts in the field of watches and jewelry; downloadable telephone ringtones; downloadable publications in the nature of magazines and newsletters in the field of watches and jewelry; downloadable computer software for database management in the field of watches, watchmaking, and jewelry; downloadable application software for database management in the field of watches, watchmaking, and jewelry; downloadable computer games software; eyeglasses; cases for sunglasses and eyeglasses; cases for mobile phones; mobile phones; pedometers; decorative magnets, and replacement parts for the aforementioned goods, namely, eyeglasses, cases for sunglasses and eyeglasses, cases for mobile phones, mobile phones, pedometers, and decorative magnets.

14 Precious metals and their alloys; watch cases [parts of watches]; clock cases; key rings [split rings with trinket or decorative fob]; pendulums [clock- and watchmaking]; barrels [clock- and watchmaking]; dials [clock- and watchmaking]; watch springs; watch glasses; movements for clocks and watches; anchors [clock- and watchmaking]; watch hands; clock hands; jewelry, precious and semi-precious stones; horological and chronometric instruments; chronographs [watches]; chronometers; cuff links; bracelets [jewelry]; jewelry charms; brooches [jewelry]; chains [jewelry]; necklaces [jewelry]; tie pins; ornamental pins; pins [jewelry]; clocks; watches; wristwatches; alarm clocks; clockworks; watch bands; watch chains; boxes of precious metal; presentation boxes for watches; jewelry boxes; presentation boxes for jewelry; clocks and watches, electric; split rings of precious metal for keys; charms for key rings; retractable key rings.

35 Presentation of timepieces and jewelry products on all communication media for retail sale in the nature of online retail store services featuring timepieces and jewelry; online electronic advertising; providing consumer information via a website concerning clocks, watches and jewelry; online retail store services featuring jewelry and timepieces; mail order catalog ordering services featuring jewelry and timepieces; web-based catalog services featuring jewelry and timepieces; customer loyalty services and customer club services, for commercial, promotional and/or advertising purposes; membership club services in the nature of providing discounts to members in the field of night clubs and restaurants; retail store services featuring goods and virtual goods, namely, horological and chronometric instruments and parts thereof, watches, time pieces, precious metals and their alloys, jewelry, virtual precious and semi-precious stones, non-medicated cosmetics and toiletry preparations, non-medicated dentifrices, perfumery and essential oils, scented water and fragrances, bleaching preparations and other substances for laundry use, cleaning, polishing, scouring and abrasive preparations, hygiene and beauty care utensils, stickers and temporary tattoos, paper and cardboard, printed matter and printed publications, bookbinding material, photographs, writing instruments, stationery and office requisites except furniture, drawing materials and materials for artists, paintbrushes, instructional and teaching materials, plastic sheets and bags for wrapping and packaging, bags, leather and imitation leather goods, animal skins and hides, luggage and carrying bags, umbrellas and parasols, walking sticks, whips, harness and saddlery, accessories for animals being collars, leashes, and clothing, household or kitchen utensils and containers, cookware and tableware except forks, knives and spoons, articles for cleaning purposes, unworked or semi-worked glass except building glass, glassware, porcelain and earthenware drinking vessels, furniture, textiles, eyewear, eyeglasses and sunglasses, smartwatches, cash registers, calculating devices, computers and computer peripheral devices, diving suits and divers' masks, ear plugs and nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming, fire-extinguishing apparatus, clothing, footwear, headwear, belts, neckties, gloves, hosiery, scarves and shawls, furs, coffee and artificial coffee, tea, cocoa and chocolate, preparations made from cereals, edible ices, sweeteners, salt, sweets and candy, biscuits, decorations, fruit beverages and fruit juices, syrups and other preparations for making non-alcoholic beverages, mineral and aerated waters, non-alcoholic beverages, beers and alcohol-free beer, non-alcoholic cocktails, alcoholic beverages except beer, alcoholic preparations for making beverages, aperitifs, liqueur, wine, alcoholic essences and extracts, digesters being liqueurs and spirits, cocktails, rice alcohol, rum, sake, vodka, whisky, gin.

37 Repair, servicing and maintenance of timepieces and jewelry products; polishing of timepieces and jewelry; leather cleaning and repair.

Xiaomi Home

Advertised under section 28(1) of Trade Mark Ordinance 2001. (Rule 29(1)) of Trade Marks Rule 2004.

Application No: 1912285

Title **Xiaomi Home**

Class: 7,9,11,12,35,38,42

Goods or services: 7 Steam engines; igniting devices for internal combustion engines; wind turbines; paper clip making machines; zipper making machines; electric wire and cable manufacturing machines; industrial robots; screwdrivers, electric; semiconductor manufacturing machines; chopstick making machines; engraving machines; battery machines; pen making machines; extractors for mines; cutters [machines]; drilling rigs, floating or non-floating; excavators; pneumatic jacks; electric hammers; foundry machines; optical cold working machines; paper diaper manufacturing machines; mechanized horse walkers; woodworking machines; papermaking machines; printing machines; industrial inkjet printing machines; spinning machines; dyeing machines; tea processing machines; food preparation machines, electromechanical; juice extractors, electric; robotic arms for preparing beverages; filters for cleaning cooling air, for engines; machines for generating gas by electrolysis; painting machines; dynamos; pneumatic cylinders [parts of machines]; pumps [parts of machines, engines or motors]; compressed air machines; valves [parts of machines]; cord making machines; candle making machines; straw mat weaving machines; refrigerated automatic vending machines; brake fluid replacement and filling machines; fluid dispensing machines for industrial use; drums [parts of machines]; racket stringing machines; shoe polishers, electric; curtain drawing devices, electrically operated; rice grain sorting machines; ticket vending machines; confectionery vending machines; vending machines; automatic tire removing and installing devices; aviation refueling truck connectors; automatic clothes folding machines for industrial purposes; agricultural machines; control mechanisms for machines, engines or motors; belts for machines; bearings [parts of machines]; electric welding apparatus; dust exhausting installations for cleaning purposes; machines and apparatus for cleaning, electric; vacuum cleaners; 3D printers; 3D printing pens; 3D bioprinters; reservoirs [parts of machines]; ice-resurfacing machines; mechanized livestock feeders; aerating pumps for aquaria; salt harvesters; labellers [machines]; silkworm egg washing machines; robotic exoskeleton suits, other than for medical purposes; filtering machines; ceramic 3D printers; hair cutting machines for animals; incubators for eggs; dual-purpose peeling and shelling machines; leather-working machines; cigarette machines for industrial purposes; sewing machines; bicycle assembling machines; potters' wheels; electroplating machines; enamel making machines; kitchen machines, electric; light bulb making machines; packaging machines; coal briquette machines; dishwashing machines; coffee grinders, other than hand-operated; washing machines [laundry]; wringing machines for laundry; bioreactors for use in manufacturing biopharmaceuticals; embossing machines; glass-working machines; fertilizer manufacturing machines; electromechanical machines for chemical industry.

9 Sunglasses for pets; electrified fences; egg-candlers; humanoid robots with artificial intelligence for use in household cleaning and laundry; decorative magnets; dog whistles; charging stations for electric vehicles; batteries, electric; battery chargers; remote-controlled engine shut-off devices for cars; remote-controlled kill switches for cars; fridge magnets; humanoid robots with artificial intelligence for preparing beverages; computer software applications, downloadable; computer programs, downloadable; computer software platforms, recorded or downloadable; smartwatches; smartglasses; downloadable application software for virtual environments; computer peripheral devices; credit card terminals; holograms; dictating machines; mechanisms for coin-operated apparatus; voting machines; electronic terminals for generating lottery tickets; biometric scanners; ticket dispensing terminals, electronic; hemline markers; pedometers; apparatus to check stamping mail; photocopiers [photographic, electrostatic, thermic]; weighing apparatus and instruments; measures; electronic notice boards; cell phones; computer network routers; camcorders; smart speakers; dashboard cameras; cameras [photography]; video projectors; inductors [electricity]; teaching robots; range finders; surveying apparatus and instruments; humanoid robots with artificial intelligence for use in scientific research; connected bracelets [measuring instruments];

materials for electricity mains [wires, cables]; sports whistles; pigeon training whistles; computer programs for Internet and World Wide Web; downloadable mobile phone software applications; servers for home network system; bathroom scales; speed checking apparatus for vehicles; diagnostic apparatus, not for medical purposes; optical apparatus and instruments; optical fibres [light conducting filaments]; control panels [electricity]; amplifiers; chips [integrated circuits]; video screens; remote control apparatus; wafers for integrated circuits; electric apparatus for commutation; lightning conductors; Ionization apparatus not for the treatment of air or water; fire extinguishing apparatus; apparatus and installations for the production of X-rays, not for medical purposes; protection devices for personal use against accidents; alarms; locks, electric; eyeglasses; animated cartoons; computer software for controlling self-service terminals; chatbot software for simulating conversations; user-programmable humanoid robots, not configured; computer programs for user interface design; computer software to maintain and operate computer systems; computers; computer operating programs; computer software, recorded; telepresence robots; computer software for controlling the operation of audio and video devices; face identification apparatus; network communication devices; routers; security surveillance robots; webcams; humanoid robots having communication and learning functions for assisting and entertaining people; multimedia projectors; sensors.

11 Cooking apparatus and installations; cooking stoves; coffee machines, electric; kettles, electric; air fryers; refrigerators; ice machines and apparatus; humidifiers; extractor hoods for kitchens; hair driers; air purifying apparatus and machines; air conditioning installations; fans [air-conditioning]; heating apparatus; fog machines; lighting apparatus and installations; lights for vehicles; germicidal lamps for purifying air; curing lamps, not for medical purposes; gas lamps; lava rocks for use in barbecue grills; heating installations; watering installations, automatic; faucets; sanitary apparatus and installations; showers; heaters for baths; water purifying apparatus and machines; water softening apparatus and installations; disinfectant apparatus; filters for drinking water; radiators, electric; gas lighters; polymerisation installations; personal cooling packs, not for medical purposes; lamps; silkworm egg dehydrators.

12 Pumps for bicycle tyres; aerial conveyors; carts; sleighs [vehicles]; repair outfits for inner tubes; tires for vehicle wheels; air vehicles; water vehicles; safety seats for children, for vehicles; upholstery for vehicles; electric vehicles; remote control vehicles, other than toys; rolling stock for railways; vehicles for locomotion by land, air, water or rail; automobiles; autonomous cars; push scooters [vehicles]; self-balancing scooters.

35 Presentation of goods on communication media, for retail purposes; advertising; online advertising on a computer network; providing business information; sales promotion for others; provision of an online marketplace for buyers and sellers of goods and services; marketing; personnel management consultancy; compilation of information into computer databases; accounting; sponsorship search; rental of cash registers; rental of vending machines; rental of sales stands; retail or wholesale services for veterinary preparations; retail services for pharmaceutical, veterinary and sanitary preparations and medical supplies; retail or wholesale services for pharmaceutical preparations; consumer profiling for commercial or marketing purposes; providing an online commercial information directory on the Internet; providing business information via a website; marketing through product placement for others in virtual environments; systemization of information into computer databases.

38 Television broadcasting; providing telecommunications connections to a global computer network; providing internet chatrooms; providing user access to a global computer network [service providers]; providing online forums; videoconferencing services; providing access to databases; providing virtual private network (VPN) services; streaming of data; communications by computer terminals.

42 Dress designing; platform as a service [PaaS]; providing online non-downloadable computer software; electronic data storage; computer software design; art work design; handwriting analysis [graphology]; software as a service [SaaS]; providing virtual computer systems through cloud computing; monitoring of computer system operation by remote access; authenticating works of art; cloud seeding; weighing goods for others; animation design for others; providing scenery design services for theatre companies; rental of meters for the recording of energy consumption; brand design services; artificial intelligence consultancy; technology consultancy in the field of artificial intelligence; research in the field of artificial intelligence; online data storage services; hosting software platforms for virtual reality-based work collaboration; providing search engines for the internet; rental of user-programmable humanoid robots, not configured; fridge magnet sticker design; testing and analysis of goods being imported or exported for quarantine clearance purposes; graphic design services for calligraphy, painting and seal carving; cartography services; design of customized books; design of clothing for pets; graphic arts design; rental of telescopes; logo design services; radon detecting; rental of scientific microscopes; design and development of

virtual private network (VPN) operating software; hosting virtual environments; development of driver and operating system software; providing online geographic maps, not downloadable; chemical research; biological research; meteorological information; vehicle roadworthiness testing; industrial design; interior design; research in the field of artificial intelligence technology; technological research; quality control.

Application No: 1913155

Title **VHOME**

Class: 7,9,11,35,38,41,42

Goods or services: 7 Vacuum cleaners; laundry washing machines; clothes washing machines; laundry washing machines incorporating a drying tumbler; dish washing machines; washing machines for household purposes.

9 Downloadable mobile applications using artificial intelligence (ai) for home automation; home automation hubs comprised of voice-activated speakers, computer hardware, and recorded software for controlling networked devices; downloadable software for streaming audiovisual and multimedia content via the internet and global communications networks; downloadable software for streaming audiovisual and multimedia content to mobile digital electronic devices; downloadable software for purchasing, accessing, and viewing movies, tv shows, videos, and multimedia content; downloadable software in the nature of a mobile application for accessing and streaming audiovisual and multimedia content via the internet and global communications networks; downloadable films and television programs featuring action adventure, animation, anime, biography, classics, comedy, crime, documentary, drama, faith, family, fantasy, film-noir, fiction, history, horror, international, musical, mystery, nonfiction, romance, science fiction, sports, thrillers, war, and westerns provided via a video-on-demand service; digital media streaming devices; downloadable mobile operating system software; audio and video receivers; television apparatus; portable media players; video screens; household remote controls; displays for television receivers; display screen filters adapted for use with televisions; video projector; video accelerators; video adapters; video digitizers; video mixers; video monitors; multimedia projector; sound recording and reproduction equipment; sound projectors; sound processors; sound mixers; apparatus for sound transmission; sound generation apparatus.

11 Refrigerators; freezers; microwave ovens; induction ovens; cooking ovens; convection ovens; oven ventilator hoods; cooking ranges; range hoods; cooking stoves; ventilation hoods for stoves; HVAC units; electric fans; ceiling fans; water heaters; air conditioning units; laundry drying machines; clothes drying machines; dish drying machines; air humidifier; drying apparatus; fans [air-conditioning]; electric heating apparatus; gas or electric water heaters for household use; refrigerating display cabinets; bath installations; water purifying apparatus and machines; sterilizing apparatus, namely kitchenware sterilizer; drinking fountain.

35 Digital and video advertising services provided via electronic media, specifically the internet, wireless networks, and mobile and portable devices; advertising services, namely, creating, composing, updating, compiling, disseminating, supporting, tracking, reporting on and analyzing advertisements for distribution on internet web pages and wireless networks; semantic advertising services, namely, advertising analysis of the meaning of website content in order to optimize and provide targeted advertising to consumers while protecting advertiser brands in real-time; providing advertising, marketing, and promotional services, namely, the management and development of advertising campaigns through electronic media, specifically the internet, wireless networks, and mobile and portable devices; provision and rental of an online space for advertising; online advertising services for others; digital advertising services for others; advertising via electronic media and specifically the internet; advertising services, namely, promoting the brands, goods and services of others; advertising and marketing services, namely, promoting the goods and services of others; pay per click advertising management services; production of advertising materials; development of advertising concepts; business management consulting with relation to strategy, marketing, sales, operation, product design particularly specializing in the use of analytic and statistic models for the understanding and predicting of consumers, businesses, and market trends and actions; consultancy regarding advertising communication strategies; marketing consulting services; providing television home shopping services in the field of general consumer merchandise; providing business information; advertising research; marketing research; analysis of business data; consumer profiling for commercial or marketing purposes; providing and rental of advertising space on the internet.

38 Streaming of audio, visual and audiovisual material via a global computer network; streaming of video and audio material on the internet; electronic transmission and streaming of digital media

content for others via global and local computer networks; transmission and delivery of cable television and audiovisual and multimedia content via the internet; video on demand transmission services; broadcasting services and provision of telecommunication access to video and audio content provided via a video-on-demand service via the internet; broadcasting services and provision of telecommunication access to films and television programs provided via a video-on-demand service; broadcasting services, namely, transmission of advertising programs and media advertising communications via digital communications networks.

41 Provision of non-downloadable films and movies via a video-on-demand service; providing television programs, not downloadable, via video-on-demand transmission services; entertainment services, namely, the provision of continuing programs, films, and television shows featuring action adventure, animation, anime, biography, classics, comedy, crime, documentary, drama, faith, family, fantasy, film-noir, fiction, history, horror, international, musical, mystery, nonfiction, romance, science fiction, sports, thrillers, war, and westerns delivered by television, satellite, and the internet and global communications networks; entertainment and educational services, namely, providing non-downloadable movies and television shows via a video-on-demand service, as well as information, reviews, and recommendations regarding movies and television shows; providing non-downloadable television shows, movies, and multimedia entertainment content, as well as information, reviews, and recommendations regarding television shows, movies, and multimedia entertainment content, via a website.

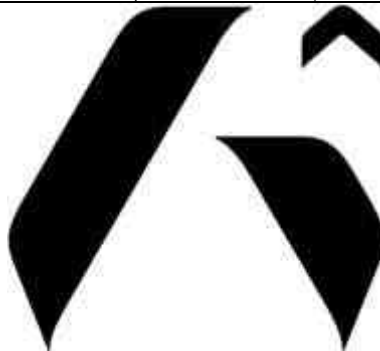

42 Design and development of computer hardware and software; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; application service provider (ASP), namely, hosting computer software applications for others; providing temporary use of non-downloadable computer software to enable users to view or listen to audio, video, text and multimedia content; providing temporary use of non-downloadable computer software for creating and providing user access to searchable databases of information and data; providing temporary use of non-downloadable computer software for wireless content delivery; providing temporary use of non-downloadable computer software for purchasing, accessing and viewing movies, TV shows, videos, music, and multimedia content; providing temporary use of non-downloadable software for enabling access to communications networks including the internet; electronic data storage; providing information in the fields of software design and development and installation and maintenance of software; scientific and technological services, namely, research and design of computer hardware and software; scientific and technological consulting services in the field of computer software and computer hardware; providing temporary use of online, non-downloadable software for use in personalized, interactive television programming and accompanying manuals distributed therewith; providing temporary use of online, non-downloadable software for use in generating, displaying and manipulating visual media, graphic images, photographs, illustrations, digital animation, video clips, film footage and audio data; providing temporary use of online, non-downloadable software for use in accessing, viewing and controlling streaming and static audiovisual content over digital media streaming devices; computer program engineering, maintenance and design services.

Agent's name And address: Kilburn & Strode LLP Lacon London, 84 Theobalds Road, Holborn London WC1X 8NL

Description of limitations, conditions and disclaimers imposed: WITH DISCLAIMER OF "THE ROYAL COLLEGE OF RADIOLOGISTS" SEPARATELY AND APART FROM THE MARK

Advertised under section 28(1) of Trade Mark Ordinance 2001. (Rule 29(1)) of Trade Marks Rule 2004.

Application No: 1915430

Title **aws**

Class: 9,42

Goods or services: 9 Computer hardware; downloadable computer software for cloud infrastructure management and automation and accessing cloud-based scalable computing resources and data storage; downloadable computer software for virtualization, managing and deploying virtual machines to a cloud computing platform, cloud computing, running cloud computing based applications, and monitoring cloud and application performance; downloadable computer software for accessing and operating cloud computing networks and applications; downloadable communications software for

connecting computer network users and global computer networks; downloadable computer software for data processing, data transfer, and data backup, recovery and archiving; downloadable computer software for creating, configuring, provisioning, managing and scaling databases; downloadable computer software for application and database integration; downloadable computer software for video streaming; downloadable game and game engine software; downloadable computer software to manage, connect, and operate internet of things (IoT) electronic devices; downloadable computer software for enabling electronic devices to operate and communicate locally while retaining the benefits of analytics and high-level services in the cloud; downloadable computer software development tools; downloadable software development kits (SDK); downloadable computer software for application development, testing, deployment and management; downloadable computer software featuring artificial intelligence (AI) and large language models (LLMs) for integrated development software, use in an integrated development environment (IDE), for automating test-driven development (TDD), code reviews, and documentation generation, and for software development productivity tools; downloadable chatbot software for simulating conversations; downloadable computer software featuring artificial intelligence (AI) for software development, computer programming, use as an application programming interface (API), building, training and deploying machine learning (ML) models, building and scaling generative AI applications, industrial machine monitoring and report-generation, machine learning, robotic functions, computer vision, natural language processing, facial, image and speech recognition, processing, and analysis, home automation, workflow automation, cybersecurity, fraud detection, generating personalized recommendations, enabling virtual assistants and chatbots, use as a search engine, database management, language translation, medical diagnosis, scientific research, managing and verifying financial transactions, creating and analyzing financial models, document processing and text editing, transportation and logistics solutions, gaming, music and sound production, analytics, data analysis, advertising, digital content creation, automating business processes and decision-making, supply chain management, research in the field of pharmaceuticals and life sciences, healthcare and medication services, scheduling and appointments, point-of-care services, business administration, and planning, allocating, and deploying energy and utilities; downloadable or recorded computer software for the transmission of data, information, voice, graphics, sound, and video; downloadable computer software for operating, installing, testing, diagnosing, and managing telecommunications equipment and accessing telecommunications networks; broadband wireless equipment, namely, telecommunications base stations for wireless networking and communications applications; downloadable computer software for use in data management using blockchain technology; downloadable or recorded operating system software for robots; downloadable or recorded software for connecting, operating, integrating, controlling, and managing robots and autonomous vehicles; downloadable or recorded computer software for edge computing and local storage and execution of software and data enabling local operability when disconnected from the cloud; cameras; camera systems for deep learning, machine learning, artificial intelligence, neural networks, and machine vision; semiconductors; integrated circuits; computer chips; computer central processing units; circuit boards; electronic circuit cards; integrated circuit modules.

42 Cloud hosting provider services; hosting of digital content on the Internet; cloud hosting of electronic databases and virtual computing environments; server hosting; hosting computer software applications and databases of others; computer services, namely, hosting, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up cloud computing environments for others; hosting, managing, developing, analyzing, and maintaining applications, software, and websites in the fields of ecommerce, online payments, order queuing, website design, data storage and shared computing capacity scaling services; computer time sharing services; providing virtual computer systems, virtual computer environments through cloud computing, virtual data storage and caching to others, and providing electronic data storage in virtual environments, electronic storage of files, providing web servers and co-location servers to third party cloud computing and data storage facilities; scaling services, namely, providing variable computing and electronic data storage capacity to others; administering and maintaining virtual computing environments for others; computer software rental; planning, design and implementation of computer technologies for others; database design and development; software design, development, research, maintenance, and updating; software engineering services; software configuration management services; data and application migration services; data mining services; data backup and data restoration services; remote online backup of computer data; data encryption and decryption services; data warehousing; electronic data storage; cross platform conversion of digital content into other forms of digital content; digital compression of computer data; technical support services, namely, troubleshooting of computer software problems; computer services, namely, monitoring the web sites of others to improve their

scalability and performance; computer services, namely, enforcing, restricting and controlling access privileges of users of computing and network resources based on assigned credentials; providing online non-downloadable communications software for connecting computer network users and global computer networks; providing online non-downloadable software for monitoring, tracking, logging, analyzing, auditing and reporting in the field of regulatory and information security compliance, and for monitoring, tracking, logging and analyzing computer network events, user activity, changes to resource activity and security statistics, computer network management and automation, monitoring computer network access and activity, network access monitoring, network threat detection, network security, cryptography, and user cryptography computing environment; providing temporary use of online non-downloadable cloud computing software for use in the field of IT governance and risk management; providing authentication services via online non-downloadable software for establishing and transmitting security credentials for domain name services; computer services, namely, unauthorized user and unauthorized software intrusion detection and protection; monitoring of computer systems and databases for security purposes in the nature of protecting data and information from unauthorized access; computerized security services, namely, electronically monitoring, detecting and reporting on suspicious and abnormal patterns of computer network access or activity in the nature of protecting data and information from unauthorized access; computer services, namely, web traffic filtering; providing search engines for obtaining data via communications networks; creating indexes of computer network based information, sites, and other resources available on global computer networks for others; hosting an online community website featuring shared communications between community members interested in technology, cloud computing, web services, software, artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, networking, mobile computing, and the Internet of Things (IoT); computer services, namely, creating an on-line community for registered users to participate in discussions, get feedback from their peers, form virtual communities, and engage in social networking services in the field of technology, artificial intelligence, machine learning, and cloud computing; research and development in the fields of robotics software and applications, artificial intelligence, artificial intelligence technology, machine learning and deep learning; consulting and providing information in the fields of information technology, cloud computing, web services, software, artificial intelligence, artificial intelligence technology, machine learning, deep learning, software development, game development, database design and development and analytics, data storage, data centers, data warehousing, data archiving, data and information security, computer networking, mobile computing, and the Internet of Things (IoT); technical consulting in the field of artificial intelligence (AI) software customization; technology services, namely, technological consulting, information technology consulting, computer technology consulting and computer software consulting all in the fields of deep learning, machine learning, artificial intelligence, neural networks and machine vision; providing online non-downloadable software development tools; providing online non-downloadable software for managing data containers and data clusters; providing online non-downloadable software for managing, connecting, and operating internet of things (IOT) electronic devices and enabling electronic devices to operate and communicate locally while retaining the benefits of analytics and high level services in the cloud, application development, testing, deployment and management; providing on-line non-downloadable software featuring artificial intelligence (AI) and large language models (LLMs) for integrated development software, use in an integrated development environment (IDE), for automating test-driven development (TDD), code reviews, and documentation generation, and for software development productivity tools; computer project management services; providing online non-downloadable software for project management, collaboration, and scheduling; providing online non-downloadable computer software for the transmission of data, information, voice, graphics, sound, and video; providing online non-downloadable computer software for operating, installing, testing, diagnosing, and managing telecommunications equipment and accessing telecommunications networks; providing online non-downloadable software development tools for creating blockchain-based applications; customizing, maintaining, and updating computer software used by others to develop blockchain-based software applications; hosting of blockchain databases; authentication of data using blockchain technology; providing online non-downloadable software for recognizing, identifying, searching, processing, analyzing, understanding, summarizing, formatting, editing, extracting, and generating speech, voice, audio, text, conversations, computer code, graphics, images, and videos, facial and optical character recognition, converting text to speech, and image analysis, identification, processing, conversion, cropping, resizing, and enhancement; providing online non-downloadable software for processing, converting, transcoding, encoding, decoding, encrypting, decrypting, distributing, and manipulating digital video, image, and audio files; providing online non-downloadable software for

video streaming and for high speed formatting and processing of audio and video streams, deploying live and on demand video content, provisioning and dynamically scaling video processing, delivery, and storage services, inserting and removing advertising and other content into video streams, digital rights management, and time shifted television viewing; providing online non-downloadable software for processing and generating text, voice, images, videos, and computer code in response to natural language prompts, visual prompts, text, speech, images, and/or video, for natural language recognition, processing, analysis, understanding, and generation, for speech recognition, translation, transcription, and translating speech and text from one language to another, and for using and creating generative AI models; providing online non-downloadable software for desktop and application streaming, virtualization, managing, and deploying virtual machines to a cloud computing platform, running cloud computing based applications, monitoring cloud and application performance, event logging, reporting, analysis, and alert generation; providing online non-downloadable software for data processing, data warehousing, data protection, data security, data transfer and migration, data backup, recovery and archiving, and collecting, editing, formatting, modifying, organizing, structuring, systematizing, indexing, processing, synchronizing, integrating, monitoring, transmitting, storing, caching, retrieving, querying, analyzing, replicating, extracting, sharing, and controlling access to data and information; providing online non-downloadable computer software for accessing and operating cloud computing networks and applications; providing online non-downloadable software for database management, creating, configuring, provisioning and scaling databases, improving database performance, logging changes within a database, searching databases, creating searchable databases of information and data, and configuring, provisioning, and scaling data cache storage for databases; providing online non-downloadable software for application and database integration; providing online non-downloadable software for operating and managing call centers and contact centers and providing customer service and customer support; providing online non-downloadable software for customer relationship management (CRM); providing online non-downloadable chatbot software for simulating conversations; providing online non-downloadable software for managing software development projects and teams; providing online non-downloadable software consisting of foundational AI models, namely, large artificial intelligence models trained on a large quantity of data; providing online non-downloadable software for use in machine learning and collecting, analyzing, and organizing data in the fields of deep learning, big data analysis, and cloud infrastructure management and automation; providing online non-downloadable software, namely, computer software featuring artificial intelligence (AI) for software development, computer programming, use as an application programming interface (API), building, training and deploying machine learning (ML) models, building and scaling generative AI applications, industrial machine monitoring and report-generation, machine learning, robotic functions, computer vision, natural language processing, facial, image, and speech recognition, home automation, workflow automation, cybersecurity, fraud detection, generating personalized recommendations, enabling virtual assistants and chatbots, use as a search engine, database management, language translation, medical diagnosis, scientific research, managing and verifying financial transactions, creating and analyzing financial models, document processing and text editing, transportation and logistics solutions, gaming, music and sound production, analytics, data analysis, advertising, digital content creation, automating business processes and decision-making, implementing multi-agent systems, workflow management, supply chain management, research in the field of pharmaceuticals and life sciences, healthcare and medication services, scheduling and appointments, point-of-care services, business administration, and planning, allocating, and deploying energy and utilities; providing online non-downloadable game and game engine software; providing online non-downloadable ecommerce software to allow users to perform electronic business transactions via a global computer network; providing online non-downloadable software that automates the processing of unstructured, semi-structured, and structured information and data stored on computer networks and the Internet, provides real time, integrated business management intelligence by combining information from various databases, and provides access to cloud based scalable computing resources and data storage; providing online non-downloadable business analytics software for collecting and analyzing data to facilitate business decision-making; programming of computer software for others; consulting services in the field of quantum computing; research in the field of quantum computing; providing online non-downloadable computer software for connecting, operating, integrating, controlling, and managing robots and autonomous vehicles; evaluating and testing the environmental qualities and impact of products and services; scientific research relating to the impact of products and services; leasing of data center facilities; evaluation of the knowledge, skills and abilities of others in the field of technology, software, cloud computing, artificial intelligence, and machine learning to determine conformity with certification standards; design of semiconductors, integrated circuits, computer

Name and address of Applicant: Amazon Technologies, Inc. CORPORATION Nevada, United States 410 Terry Avenue North Seattle WA 98109US
Date of filing: 30/12/2025
Agent's name And address: Alberto Zacapa DLA Piper LLP (US) 500 8th St. NW Washington DC 20004

Advertised under section 28(1) of Trade Mark Ordinance 2001. (Rule 29(1)) of Trade Marks Rule 2004.
Application No: 1915440

Title **ONLYHEALTH.CO**

Class: **43,44**

Goods or services: 43 Restaurant, café, and catering services; coffee and juice bar services; providing temporary accommodation; hotel and resort lodging services; travel agency services, namely, making reservations and booking for temporary lodging; providing information in the field of temporary lodging and accommodations; providing general purpose facilities for meetings, conferences and exhibitions; rental of banquet and social function facilities for special occasions, namely, wedding receptions; providing temporary housing for medical patients and their families; day-nursery services; animal boarding services.
44 Medical clinic services; medical services; medical diagnostic testing and screening services; medical imaging services; physical therapy and medical physical rehabilitation services; acupuncture services; massage services; health spa services, namely, cosmetic body care services and facial treatment services; health care services, namely, health counselling; psychological services and mental health counseling; nutritional counseling and dietary advice; beauty care services; beauty salon and cosmetic skin care services; dental services; telehealth services; holistic health services; veterinary services; animal breeding; livestock farming services; occupational health consultancy.

Name and address of Applicant: MURAT GÜLAÇTI BURHANIYE MAH. TUNUSLU MAHMUTPASA CAD., SEHRIZAR KONAKLARI F5 NO: 2/9 IÇ KAPI NO: 4, ÜSKÜDAR ISTANBULTR

Date of filing: 02/02/2026

Agent's name And address: TÜRKTICARET.NET ESNETEPE MAH. HARMAN 1 SOK., GIZ PLAZA APT. NO:5/29, SISLI ISTANBUL

Description of limitations, conditions and disclaimers imposed: WITH DISCLAIMER OF "HEALTH CO" SEPARATELY AND APART FROM THE MARK

INQLEXZO

Advertised under section 28(1) of Trade Mark Ordinance 2001. (Rule 29(1)) of Trade Marks Rule 2004.
Application No: 1914408

Title **INQLEXZO**

Class: **5,10**

Goods or services: 5 Pharmaceutical preparations for human use.
10 Medical apparatus for introducing pharmaceutical preparations into the human body; implantable medical device for introducing pharmaceutical preparations into the human body.

Name and address of Applicant: Janssen Pharmaceutica NV Naamloze Vennootschap Belgium Turnhoutseweg 30 B-2340 BeerseBE

Date of filing: 14/04/2026

COLEOLOGY CUTTING JELLY

Advertised under section 28(1) of Trade Mark Ordinance 2001. (Rule 29(1)) of Trade Marks Rule 2004.

Application No: 1911083

Title **COLEOLOGY CUTTING JELLY**

Class: 5,29

Goods or services: 5 Protein dietary supplements; dietary supplements; dietary supplement drink mixes; dietary supplements with a cosmetic effect; dietary supplemental drinks; anti-oxidants for use as dietary supplements; nutritional supplements; nutraceuticals for use as a dietary supplement; dietary supplements for human beings; health supplement food containing garcinia cambogia extract as the main ingredient; dietary food supplements in powder, granule, capsule, jelly, and tablet form containing garcinia cambogia extract as the main ingredient; health supplement food containing dietary fibre and probiotic bacteria for use as food supplements; dietary food supplements in powder, granule, capsule, jelly, and tablet form containing dietary fibre and probiotic bacteria for use as food supplements.

29 Processed garcinia cambogia extract for food; fibre, namely, plant-based meat substitutes, processed beans, lentils, edible seeds, fruits, vegetables, nuts and probiotic dried fruit-based food; probiotic dairy-based food; probiotic almond-based food; preserved, frozen, dried and cooked fruits and vegetables; fruit, processed; jellies for food, other than confectionery; protein milk.

NVC

Advertised under section 28(1) of Trade Mark Ordinance 2001. (Rule 29(1)) of Trade Marks Rule 2004.

Application No: 1913274

Title **NVC**

Class: 9,11

Goods or services: 9 Electric sockets; electrical connectors; switches, electric; circuit breakers; materials for electricity mains [wires, cables]; power connectors; commutators; regulating apparatus, electric; connections for electric lines; couplings, electric; relays, electric; transformers [electricity]; connectors [electricity]; current rectifiers; integrated circuits; light dimmers [regulators], electric; sockets, plugs and other contacts [electric connections]; distribution boxes [electricity]; converters, electric; distribution consoles [electricity]; led strobe emergency warning lights; light emitting diodes (LEDs).

11 Lamps for lighting, lamps, electric lamps, ceiling lamps, quartz lamps, luminous tubes for lighting, energy-saving lamps, light diffusers; LED candles; LED flashlights; LED floodlights; LED lamps; LED landscape lights; LED lighting assemblies for illuminated signs; LED lighting installations; LED lights; LED luminaires; LED mood lights; LED pocket lamps; LED safety lamps; LED underwater lights; light-emitting diode [LED] light bulbs; light-emitting diode [LED] lighting apparatus.

Name and address of Applicant: NVC Innovations Pte. Ltd. Private Limited Company SINGAPORE 55 KIM CHUAN DRIVE, #07-09 PRECISE TREE SINGAPORE 537098SG

Date of filing: 12/02/2026

Agent's name And address: IPHub Asia Pte Ltd 331 NORTH BRIDGE ROAD, #22-00 ODEON 331 SINGAPORE 188720

Advertised under section 28(1) of Trade Mark Ordinance 2001. (Rule 29(1)) of Trade Marks Rule 2004.

Application No: 1913059

Title **MKE**

Class: 9,12,13

Goods or services: 9 Measurement apparatus and equipment including those for scientific, nautical, topographic, meteorologic, industrial and laboratory purposes, thermometers, not for medical purposes, barometers, ammeters, voltmeters, hygrometers, testing apparatus not for medical purposes, telescopes, periscopes, directional compasses, speed indicators, laboratory apparatus, microscopes, magnifying glasses, stills, binoculars, ovens and furnaces for laboratory experiments; apparatus for recording, transmission or reproduction of sound or images, cameras, photographic cameras, television apparatus, video recorders, CD and DVD players and recorders, MP3 players, computers, desktop computers, tablet computers, wearable computers, wearable speakers, wearable activity trackers, wearable video display monitors, head-mounted displays, head-mounted cameras, microphones, loudspeakers, earphones, telecommunications apparatus, apparatus for the reproduction of sound or images, computer peripheral devices, cell phones, covers for cell phones, telephone apparatus, computer printers, scanners [data processing equipment], photocopiers; magnetic and optical data carriers and computer software and programmes recorded thereto, downloadable and recordable electronic publications, encoded magnetic and optical cards, movies, tv series and video music clips recorded on magnetic, optical and electronic media; antennas, satellite antennas, amplifiers for antennas, parts of the aforementioned goods; electronic components used in the electronic parts of machines and apparatus: semiconductors, electronic circuits, integrated circuits, chips [integrated circuits], diodes, transistors [electronic], magnetic heads for electronic apparatus, electronic locks, photocells, remote control apparatus for opening and closing doors, and sensors; counters and quantity indicators for measuring the quantity of consumption, automatic time switches; clothing for protection against accidents, irradiation and fire, safety vests and life-saving apparatus and equipment; apparatus and instruments for conducting, transforming, accumulating or controlling electricity, electric plugs, junction boxes [electricity], electric switches, circuit breakers, fuses, lighting ballasts, battery starter cables, electrical circuit boards, electric resistances, electric sockets, transformers [electricity], electrical adapters, battery chargers, electric door bells, electric and electronic cables, batteries, electric accumulators, solar panels for production of electricity; alarms and anti-theft alarms, other than for vehicles, electric bells; signalling apparatus and instruments, luminous or mechanical signs for traffic use; fire extinguishing apparatus, fire hose and fire hose nozzles; radar apparatus, sonars, night vision apparatus and instruments.

12 Motor land vehicles, motorcycles, mopeds; engines and motors for land vehicles; clutches for land vehicles; transmissions, transmission belts and transmission chains for land vehicles; gearing for land vehicles; brakes, brake discs and brake linings for land vehicles; vehicle chassis,

automobile bonnets, vehicle suspension springs, shock absorbers for automobiles, gearboxes for land vehicles, steering wheels for vehicles, rims for vehicle wheels; bicycles and their bodies; handlebars and mudguards for bicycles; saddles for bicycles or motorcycles; vehicle bodies; tipping bodies for trucks; trailers for tractors; frigorific bodies for land vehicles; trailer hitches for vehicles; vehicle seats; head-rests for vehicle seats; safety seats for children, for vehicles; seat covers for vehicles; vehicle covers (shaped); sun-blinds adapted for vehicles; inner tubes and tires for vehicle wheels; tubeless tires; tire-fixing sets comprised of tire patches and tire valves for vehicles; windows for vehicles, vehicle windows made of safety glass, rearview mirrors and wing mirrors for vehicles; anti-skid chains for vehicles; luggage carriers for vehicles; bicycle and ski carriers for cars; rail vehicles; locomotives; trams; trams; waggons; cable cars; chairlifts; vehicles for locomotion by water; vehicles for locomotion by air; apparatus for locomotion by land, air or water; fire engines.

13 Firearms, air pistols (weapons), spring-loaded firearms, adapted cases and shoulder straps therefor; heavy weapons, mortars and rockets; fireworks; sprays for personal defence purposes.
